range of impact (for non-adversarial threat sources)

**DSSA Ops group**

Analysis -- complete a summary mind-map of NIST 800-30  (Mikey)
Board committee -- review results from Patrick -- held over
Review Julie's draft of "handling confidential information" with the Ops group
(held over pending language from Mark)

**Issues and concerns**

Regarding the scope issue from last week -- the co-chairs agree that methods, while important,
simply a tool that we need in order to complete the work that we're chartered to do.  We will info
interested parties (AC/SOs and SSR-RT) but there's no need to go back for review or approval
