FRN – report
Options and recommendation
Recommendation: Put this Drafting Team report out for public comment
Options for community discussion
Option: Add a section of the RAA that addresses Business Practices
Option: Look at a change the IRTP rather than RAA
Option: Add this issue to the upcoming PDP on the RAA
Option: Initiate a PDP on FRN
Option: Do not proceed with any action at this time
Option: Refer to the At Large for better communication to the end user community
Next step
Refer to At Large
Explore possibilities of training, awareness activities
Pro
Participation/awareness of a broader community
Con
Caution about budget impact
May not be consistent with the role that At Large wishes to pursue
Drafting team view
The drafting team supports this option and wishes to point out that these are not all exclusive options -- complementary not exclusive
Option: Raise this issue with the FTC to see if the registrar is in compliance with relevant law
Next step
Request that ICANN Compliance refer this issue to the FTC
Pro
Places the issue in well-established legal framework
Leverages previous legal action
Con
The drafting team supports this approach if it is determined that it will work
May miss the mark if the miscreant is outside the jurisdiction of the FTC
Large-scale solution to a narrowly-defined problem
Analysis of questionnaire
Revisions
Resequence the recommendations
Draft motion?
Next step?
Further discussion?
Compliance to reassess complaints to see if they can take enforcement action
