- The negotiation teams reviewed the pending action items from the last meeting, and expected delivery dates for those items;
- The Registrar Negotiation Team responded to a proposed Appendix addressing the clarifications reviewed from the law enforcement representatives on WHOIS validation, noting specific concerns with respect to the telephone verification, annual re-verification, the timing of verification (prior to resolution or registration vs. after registration), and associated costs. The Registrar Negotiation team provided a response based upon the LE clarification with regard to the data retention issues, and suggested varying durations for retention depending upon the type of information sought, and whether the information is highly sensitive (such as financially-related information). The participants discussed concepts of commercial practicability and compliance with local laws. Additionally, the Registrar NT inquired as to access rights beyond law enforcement requests.
- The Participants discussed planning for Prague & the publication deadline for any documents to be discussed.
