30 November 2023

Attendees

Dzaki	Prof Yudho Giri Sucahyo
Diaz Nawaksara	Dr Cokorda Pramatha
Ghea	Dr Sarmad Hussain
Kasu Wardana	Pitinan Kooarmornpatana
MJ Arifpustoko	Yin May Oo

Meeting Notes

Prof Yudho highlighted that Putri has sent the LGR documents on Balinese, Javanese and Pegon through email.

Dr Cokorda presented the updated Balinese LGR proposal document. The updates are in the Variant section and Repertoire.

ICANN will do frequency checking of the code points and feedback on these, some code points could be excluded.

ICANN asked questions about the least-frequently used code points as listed below, if they could be governed by more strict rules or removed. There are codepoints listed in the repertoire, which had zero occurrences, only one occurrence and below 100 out of the word list which has more than 83000 codepoints.

There was a question about code points combination and variant possibilities. The variants will be revised.

Pitinan and Sarmad will be in Bali and attending the event. The detailed agenda of the event will be shared to them by Dr Cokorda.
