

The objective of the At-Large Outreach and Engagement Sub-Committee being to lead and coordinate the At-Large activities in Outreach and Engagement, my background and experience in community mobilization and outreach in Africa and elsewhere, give me a unique profile to feel this position.

As a former member of this Sub-Committee for at least 2 years, I understand its working strategies and processes and I will closely collaborate with the other co-chairs to improve the Sub-Committee work for better results in terms of reaching out to underserved communities in ICANN different regions.
