

Conflict of interest Statement

Name

Olivier MJ Crépin-Leblond

Current vocation, employer and position

Managing Director of Global Information Highway Ltd, a limited liability private company incorporated in England and Wales.

I am also a member of the English Chapter of the Internet Society.

Type of work performed

My company provides sub-contracting technical services for IP networks (both intra-nets and Internet) as well as technical and strategic consultancy on next generation networking to worldwide clients. It also supports the export of refurbished telecommunications equipment to developing countries. I manage it whilst resorting to contractors for the hands-on installation work.

Identify any type of commercial or non-commercial interest in ICANN related topics. Are you representing other parties? Describe any arrangements/agreements between you and any other group, constituency or person(s) regarding your nomination/selection.

No direct financial interest but ultimately, my business benefits from a stable user-centric Internet ecosystem.

Since July 2011, I act as independent ad-hoc consultant for the company gTLD Team (<http://gtldteam.com/team/>). The extent of my involvement is to consult on IPv6 issues only, should these arise. My services have not been solicited thus far.

I am not connected to any new gTLD application process although I hold stock from several tech firms, including Google.

I have strong links with the Internet Society, through ISOC England. ISOC has funded my travels to 2 IGFs, as an ISOC ambassador. They have also partly funded an IPv6 project which I directed. Also partly funding this project is TwentyTwenty Media, a UK hosting provider also registering domains - but they are also my company's ISP.

Describe any tangible or intangible benefit that you receive from participation in such processes, for example, if you are an academic or non-governmental organization and use your position to advance your ability to participate, this should be part of the Statement of Interest.

None.
