Alice Jansen: (5/2/2012 07:43) Welcome to the WHOIS Policy Review Team call!

Alice Jansen: (08:04) A.O.B suggestion: adopt preliminary report of your last call (25 April)

Alice Jansen: (08:07) I circulated a V8 email shortly before the call which incorporates your comments, Peter, into Susan's version.

Alice Jansen: (08:10) Denise has just joined

Susan: (08:20) reasonable uses?

Seth Reiss: (08:32) I also do not have strong feelings

Seth Reiss: (08:34) I don't know how to make a green check, but if I could I would do a green check

Susan: (08:34) Seth same pull down as when you want to raise your hand

Seth Reiss: (08:35) thank you

Bladel: (08:49) Susan just gave me an idea for new business model. :)

Alice Jansen: (08:54) Apologies - I will make sure to rectify that and to circulate a new version.

peter: (08:58) This is my proposed language: 5. ICANN should ensure that the requirements for accurate WHOIS data are widely and pro-actively communicated, including to current and prospective Registrants, and should use all means available to progress WHOIS accuracy as an organizational objective. As part of this effort, ICANN should ensure that its Registrant Rights and Responsibilities document is pro-actively and prominently circulated to all new and renewing registrants.

Emily Taylor: (09:04) add "including any internationalised whois data"

Emily Taylor: (09:07) We will restore the original language in sections C&D

Bladel: (09:10) I sent that... :)

Bladel: (09:12) Theme for today: no one is dying in ditches
