

I am honored to accept the nomination for the NomCom position. With a rich 17-year experience at ICANN, including two separate two-year terms on the NomCom (4 years total), I bring a wealth of knowledge in candidate evaluation and selection for the various roles within the ICANN organization. My deep understanding of ICANN's structure and the intricate interrelationships among its supporting organizations and advisory committees enhances my ability to contribute effectively. NomCom's selections are vital to our multi-stakeholder environment's continued improvement and development.
