Registration Data Request Service (RDRS)

Registrars & ICANN: Good RDRS Requests

ICANN 80
11 June 2024

How Was the RDRS Pilot Program Developed?

The service was developed by ICANN org

In order to use the service, the requestor creates or uses an existing ICANN Account

The service launched in November 2023

Engaged GNSO small team for input on pilot system design

Leverages existing ICANN materials, systems, and tools, namely the Naming Services portal (NSp)

Participating registrars began onboarding September 2023

Notable RDRS Metric & System Enhancements
