

I graciously accept the nomination for another term as APRALO Chair. If selected by the community for the role once again my aim would be to focus on the some aspects which I feel are critical for APRALO. These include:

1. Adoption and implementation of the updated Rules of Procedure for APRALO, that was developed by the community.
2. Work with the community to make APRALO processes more open, accountable and transparent. One such example is the Travel Policy.
3. Focus on enhancing the engagement and communication with the ALSes and individual members by keeping them more informed on the various initiative, opportunities available.
4. Coordinate with GSE team and our ALS and Individual members on outreach and engagement in the region.
4. Work to build the next line of APRALO leaders.
5. Nurture and develop the young APRALO brigade and get them more involved in the AtLarge and ICANN ecosystem
6. Support the APRALO community and At large leadership on the initiatives and policy efforts wherever appropriate.

Apart from the points listed above, there may be other focus areas that may be adopted on a need basis.

Regards,

Amrita
