   Hello everyone!

10:03:18 From Jeffrey Bedser to Everyone:

   Apologies for the delayed arrival, an SSAC call went a bit long.

10:07:53 From Cheryl Langdon-Orr to Everyone:

   stakeholders is very GNSO specific

10:08:24 From Amrita Choudhury to Everyone:

   that text makes sense Justine

10:10:45 From Rao Naveed Bin Rais to Everyone:

   Stakeholders can be at equal level in hierarchy while the substructures are necessarily

down in the hierarchy

10:11:16 From Harold Arcos to Everyone:

   could we keep "where applicable", Thinking in possible future new substructures will be

created? make sense to me

10:11:36 From Cheryl Langdon-Orr to Everyone:

   I understand Tijani's POV but I am ok with the text as not modified equally as well to the

proposed shortening

10:12:44 From Cheryl Langdon-Orr to Everyone:

   Yes substructures is an essential add

10:14:26 From Manju Chen to Everyone:

10:17:22 From Harold Arcos to Everyone:
