gTLD Applied for string	At-Large wiki page on gTLD Applied for String	Number of comments for evaluation panels consideration	Number of comments on objection grounds
(hyperlinked to gTLD application on ICANN's website)		(blank indicates no comments received)	(blank indicates no comments received)
.blah	(hyperlink to wiki page for .blah)	3	17
.thebeststringever	(hyperlink to wiki page for .thebeststringever)		12
.somestring	(hyperlink to wiki page for .somestring)		2
.somethingortheother	(hyperlink to wiki page for .somethingortheother)	1	
.astringlikenoother	(hyperlink to wiki page for .astringlikenoother)	4	
.theonestring	(want to submit comment on .theonestring?)		
.blahblah	(want to submit comment on .blahblah?)		
.theworldwantsanotherstring	(want to submit comment on .theworldwantsanotherstring?)		

Questions to consider:
* should the list of gTLD Applied for strings (up to 500 or more entries) be on one sheet?
* should there be separate sheet/page to track comments for evaluation panels consideration and one for comments on objection grounds?
*
