Statement of Interest

Person: Glenn McKnight

Position: Secretariat

In the past year I have broaden my involvement with ICANN activities including the creation of a success NARALO Recritment Video, NARALO survey, ICANN Academy Moodle and dozens of short informative videos shared with the ICANN community to be used by new members through the ICANN Academy. I served this year as a NARALO rep on the NOMCOM committee which had recently seven continuous days of dedication creating a slate of new candidates to serve on the board and various committees. The feedback from fellow committee members and the ALAC chair has been positive to my dedication to service, involvement and positive contribution to the

selection process. Another contribution to the community is my $\operatorname{\mathsf{E-Crime}}$

Monitor Blog http://ecrimemonitor.wordpress.com/

I'm working with ISOC to create an ISOC Toronto chapter with the support of many of the ISOC Chapter members and the executive to raise the many relevant issues in our communities

The past four years as a member of IEEE I have been active in the IEEE Humanitarian Technology Challenge and the IEEE Canada HIC project promoting reliable electricity, data connectivity and ID records in the

poorest countries. This has been weekly committee work and efforts with

the United Nations Foundation and a very large international group to conceptualize, Open Source and rollout the cost effective technologies

I was responsible for the creation of a Open Hardware license for the WeCare Solar Suitcase which provides off-the grid power for hospitals and maternity wards in the third world as developed by Dr. Laura Satchel.

My current volunteer work with Naralo involves the Toronto Working Group which includes a NARALO display table at ICANN Toronto and a Special event to honour the Five Year's of NARALO activities.

I bring a set of organizational skills and interpersonal skills that will help NARALO reach it's goal and my plans are to work co-operatively with the Chair. and fellow members to raise the awareness and membership on NARALO.

Thanks Glenn McKnight
