00:31:45   Bukola Oronti: My network is abit unstable. Just putting it here incase I'm off and on.

00:35:26   Evin Erdogdu - ICANN Org: Reacted to "My network is abit u..." with 👍

00:36:51   Justine Chew: Can we have that clarified then please?

00:37:13   Justine Chew: Otherwise, I don't know where RALOs are supposed to do.

00:37:50   Evin Erdogdu - ICANN Org: ICANN org can take an AI to draft language with the small team to clarify.

00:38:07   Justine Chew: Reacted to "ICANN org can take a..." with 🙏

00:38:29   Cheryl Langdon-Orr: Replying to "ICANN org can take a..."

thanks Evin the clarity *is* important

00:39:11   Cheryl Langdon-Orr: none of that work should be lost, and if your ready in the RALO go for it!

00:39:25   Cheryl Langdon-Orr: that's a noce to have not a MUST have

00:39:31   Cheryl Langdon-Orr: nice

00:39:45   Justine Chew: Replying to "none of that work sh..."

Sure, we're just asking that that be made clear in this document.

00:40:00   Justine Chew: Replying to "none of that work sh..."

Which Evin has taken an AI to do.

00:40:03   Bukola Oronti: Reacted to "ICANN org can take a..." with 👍

00:41:34   Evin Erdogdu - ICANN Org: And the work of the CIP-CCG throughout 2024 to engage with your groups has demonstrated careful consideration and utility of this framework.

00:42:45   Cheryl Langdon-Orr: so we have all learned something then have we not @Alan?

00:43:40   Cheryl Langdon-Orr: Yes doing it *without* the substructures would have been absolute folly IMO

00:44:39   Alan Greenberg: @Cheryl, If the substructures would have been looking at the AC/SO instead of local naval gaising, I would agree with you completely.

00:44:57   Justine Chew: I think all we need to do is to add a "For avoidance of doubt, substructures may proceed with their CIPs at their own option." disclaimer. Or something along those lines.

00:45:41   Cheryl Langdon-Orr: Replying to "I think all we need ..."

I trust staff drafting will reflect that well - agreed

00:46:29   Bill Jouris: Replying to "I think all we need ..."

Certainly the NARALO responses will make sure the staff is at least aware of the issue

00:46:40   Justine Chew: Reacted to "Certainly the NARALO..." with 👍

00:47:44   Cheryl Langdon-Orr: Yes he did a lot of tidy up work in particular...

00:49:03   Justine Chew: IPC's comment @Owen Smigelski (Namecheap)

00:50:54   Cheryl Langdon-Orr: Replying to "IPC's comment @Owen ..."

yup....

00:51:00   Justine Chew: @Glen de Saint Gery could you help me understand how we could be accountable to the global Internet community?

00:52:10   Owen Smigelski (Namecheap):   I agree with Tijani

00:52:19   Cheryl Langdon-Orr: Ahh... were at the trying to make everyone happy stage :-) always a jostle in wordsmithing so apply the simplest solutions where we can

00:53:27   Justine Chew: +1 Chris

00:53:33   Owen Smigelski (Namecheap):   +1 Chris

00:53:35   Jeffrey Bedser:+1 Chris

00:53:38   Amrita Choudhury: Agree

00:54:13   Cheryl Langdon-Orr: so then we don't accept the proposed change to the red text ... revert to the previous 'wider ICANN community.'

00:56:44   Cheryl Langdon-Orr: Replying to "so then we don't acc..."

as I suggest go for the simplest solution stick with the ''wider ICANN community" text and Yes as Evin just outlined take care of the matter out of the *Principles* per se...

00:57:02   Justine Chew: The SO, AC, or NomCom is accountable internally to its stakeholders and substructures (where applicable), and externally to wider ICANN community in benefit of the global Internet population?

00:57:29   Chris Disspain:I agree with that point Damon...

00:57:39   Owen Smigelski (Namecheap):   Replying to "The SO, AC, or NomCo..."

First look, that might be a good suggestion. Would need to mull over it

00:57:43   Cheryl Langdon-Orr: Replying to "The SO, AC, or NomCo..."

That could work perhaps let's see the response to it....

00:57:47   Chris Disspain:I think the term global public interest is different though

01:00:28   Cheryl Langdon-Orr: Justine's text above seems to cover some of that @Larisa Gurnick - ICANN Org

01:01:38   Justine Chew: @Damon Ashcraft true, but we need to be accurate though,

01:01:48   Amrita Choudhury: Reacted to "@Damon Ashcraft true..." with 👍

01:02:03   Chokri Ben Romdhane: +1 Damon

01:02:04   Chris Disspain: fair point Damon…

01:02:30   Chris Disspain: you're attempting to stop us from being lawyers :-)

01:03:09   Damon Ashcraft: Chris, correct--already enough lawyers in ICANN :)

01:03:43   Chris Disspain: I'm sorry… enough?? lawyers?? some mistake surely?

01:03:49   Larisa Gurnick - ICANN Org: Organizational Reviews are anchored in Article 4.4. of the ICANN Bylaws to assess the effectiveness of ICANN's supporting organizations and advisory committees. Organizational Reviews are conducted by independent examiners to assess:

(i) whether that organization, council or committee has a continuing purpose in the ICANN structure.

(ii) if so, whether any change in structure or operations is desirable to improve its effectiveness.

(iii) whether that organization, council or committee is accountable to its constituencies, stakeholder groups, organizations and other stakeholders.

01:04:01   Damon Ashcraft: Well, we need more IP lawyers.....🙂

01:04:08   Damon Ashcraft: That's tongue and cheek folks!

01:04:27   Owen Smigelski (Namecheap):   Replying to "That's tongue and ch..."

Do former IP lawyers count? Asking for a friend.

01:04:39   Chris Disspain: Reacted to "Do former IP lawyers..." with 😂

01:05:00   Cheryl Langdon-Orr: Reacted to "Do former IP lawyers..." with 😂

01:05:24   Damon Ashcraft: Justine, there isn't a different means--all that we're saying is that we should recognize that our work in ICANN has effects outside of ICANN and we should be cognizant of that.

01:07:11   Damon Ashcraft: By the way, the GNSO Council is working on its comments in connection with the CCOICI and Chris's group .

01:07:35   Cheryl Langdon-Orr: Reacted to "By the way, the GNSO..." with 🙏

01:08:22   Justine Chew: Replying to "Justine, there isn't..."

I'm not disputing that but as I said, I don't really know how to be accountable to the global Internet population, but we can do things with that in mind.

01:11:13   Berry Cobb - ICANN Org: The CCOICI in in progress from converting from a pilot to a permanent standing committee. They hope to deliver their charter to the GNSO Council in November for consideration and adoption.

01:11:19   Caleb Ogundele: CCOIC

01:11:32   Damon Ashcraft: We need to revise that acronym.....

01:11:48   Berry Cobb - ICANN Org: I tried. I was unanimously defeated. ;-)
