

Inreach and Outreach Draft Recommendations:

Inreach:

- Staff upon approval from APRALO leadership should communicate with all ALSs through a monthly or quarterly e-mail newsletter that shares updates on APRALO activities, updates on various ALS activities, new members included in APRALO, open issues that ALSs can participate and contribute to.

Status: Recommendation

- A skype chat window should be introduced to which all ALS representatives and members can be added to in order to share any important updates and open issues for comments.

Status: Done and On-going

- Update all ALSs about At-Large activities on a regular basis through individual emails and through skype window.

Status: Recommendation

- Introduce a limit the number of APRALO Leaders and APRALO to ALAC representatives to one per ALS in order to increase more ALS interest participation in APRALO leadership activities.

Status: Recommendation to explore By-Laws Amendment if required

- Introduce a yearly rotation limit of the secretariat so that ALSs that are interested in hosting the secretariat can do so for a year. Also, introduce the option by which the APRALO leadership may decide to reallocate the secretariat to a another interested ALS (should the APRALO leadership believe that the secretariat is not performing to assist them in carrying out APRALO related tasks.)

Status: Recommendation to explore By-Laws Amendment if required

Outreach:

- Introduce **APRALO Participation and Outreach Incubation Program** in order to encourage and increase individual internet end-user participation from countries with less or no participation in APRALO (should be in all countries under APRALO). Under this program, country level At-Large structures will be incubated and members will be inducted, for example: Bangladesh@At-Large, Bhuttan@At-Large, Malaysia@At-Large. Each country@At-Large structure will be mentored by APRALO in order to effectively and fully participate within APRALO, At-Large and ICANN activities. Each incubated ALS will be able to participate in APRALO processes. This will help double the participation in APRALO.

Status: Recommendation to explore By-Laws Amendment if required
