00:33:45 Cheryl Langdon-Orr: Thanks to Michelle for this additional data points

00:34:01 Cheryl Langdon-Orr: I could only access the EN ;-)

00:35:32 Cheryl Langdon-Orr: Michelle and I can perhaps make a new Graph set from the aggregates (if you want to use them) but regardless our degree of consensus on these responses is pretty clear on most

00:37:38 Cheryl Langdon-Orr: I think that was a lable / key problem I noted that in our chat over the weekend

00:40:39 Hadia Elminiawi (ALAC-member): +1 Claire of course we need the raw data

00:40:47 Hadia Elminiawi (ALAC-member): Totally agree

00:44:50 Cheryl Langdon-Orr: annex rather than try to elbow too much into the form'

00:47:22 Cheryl Langdon-Orr: I like the transparency inn what you have proposed
@Claire Craig

00:49:00 Cheryl Langdon-Orr: We can still add more literal received comments to clarify I agree @Vanda Scartezini -FITEC - POLO - ABES- ICANN-DNS WOMEN

00:49:41 Cheryl Langdon-Orr: We can sort that out today

00:51:54 Bukola Oronti: I agree with the information added to the document, but I will suggest that we merge the responses in the different languages to give an aggregate.

00:56:45 Bukola Oronti: It might be difficult getting the actual responses by region, because unless we are 100% sure, some other regions might have responded in English instead or Spanish or French

00:56:56 Bukola Oronti: *of

00:57:55 Vanda Scartezini -FITEC - POLO - ABES- ICANN-DNS WOMEN: agree Bukola, several members from my region responded in English without wait for the spanish translation

00:58:23 Vanda Scartezini -FITEC - POLO - ABES- ICANN-DNS WOMEN: for instance, portuguese spoken

00:58:58 Claire Craig: the responses actually do not reflect region but language En, Es and Fr.

00:59:14 Vanda Scartezini -FITEC - POLO - ABES- ICANN-DNS WOMEN: yes

00:59:15 Bukola Oronti: Reacted to "the responses actual..." with 👍

00:59:40 Judith Hellerstein: However, we made sure people did not respond twice

01:00:15 Claire Craig: Replying to "However, we made sur..."

We did. It was checked by ICANN staff

01:01:32 Hadia Elminiawi (ALAC-member): I agree that having responses per language has its benefits, but we need to make sure the overall responses are clear

01:02:00 Cheryl Langdon-Orr: I'm all about the strategy on the short Medium and LONG term

01:02:19 Hadia Elminiawi (ALAC-member): I am with showing that we put out the poll in three languages
01:02:27 Cheryl Langdon-Orr: Reacted to "I am with showing th..." with 👍
01:02:41 Cheryl Langdon-Orr: Leading by example
01:02:53 Cheryl Langdon-Orr: cliff notes still count
01:03:12 Cheryl Langdon-Orr: Reacted to "I agree that having ..." with 👍
01:03:33 Bukola Oronti: I agree with AtLarge/ALAC setting a precedence on this. Not a bad idea, just concerned that the responses could have been more in other languages if the translation went out at the same time
01:04:03 Bukola Oronti: Reacted to "I am with showing th..." with 👍
01:04:07 Bukola Oronti: Reacted to "Leading by example" with 👍
01:07:59 Cheryl Langdon-Orr: all about the actual influence NOT the number of seats to try and HAVE any Influence
01:08:44 Bukola Oronti: Replying to "all about the actual..."

Thank you, I understand better and I agree

01:08:47 Judith Hellerstein: I think we should state that the survey went out later for the other languages
01:10:25 Cheryl Langdon-Orr: 48hrs later but we lengthened the end time to compensate
01:13:23 Hadia Elminiawi (ALAC-member): @Claire Craig I hadn't seen the breakdown and aggregate that you had added before the call - I agree on how you have it now - to me it is important that the aggregate is clear.
01:13:32 Judith Hellerstein: Reacted to "I agree with AtLarge..." with 👍
01:13:51 Judith Hellerstein: Replying to "I agree with AtLarge..."
Hence my comment
01:14:20 Cheryl Langdon-Orr: we also need to not make too MUCH of that Judith or that becomes NOT strategic Planning comments but something else, again lead by example and note it in any annex or general text but don't try to make too much of it...
01:15:21 Claire Craig: Reacted to "@Claire Craig I hadn..." with 👍
01:16:06 Cheryl Langdon-Orr: Replying to "I agree with AtLarge..."

even when translations do NOT go out at the same time, stating they are coming and that no disadvantage in what is chosen happens by closing dates is the key and OUR poll is not the PC it is just an internal exercise (a worthy one of course) but internal to us

01:16:42 Cheryl Langdon-Orr: I agree @Vanda Scartezini -FITEC - POLO - ABES- ICANN-DNS WOMEN
01:19:40 Silvia Vivanco - ICANN Org: Yes happy to assist Claire !
01:21:23 Cheryl Langdon-Orr: 2.4.1 gets the front half of the sentence dropped and a new set of words to show the intent of what is left including limitations of bandwidth
01:22:20 Cheryl Langdon-Orr: If any of these 2.4.x has any more than 20 words it is 5 words too long IMO
01:22:54 Hadia Elminiawi (ALAC-member): We could spell out everything we would like to see

01:23:00 Cheryl Langdon-Orr: Judith is describing Universal design
01:23:32 Cheryl Langdon-Orr: so say considering Universal Design
01:24:24 Cheryl Langdon-Orr: something like that leave that to Heidi
01:24:30 Cheryl Langdon-Orr: she gets the drift
01:25:51 Cheryl Langdon-Orr: catch phrase is 'considering Universal Design in tool choice'
01:26:05 Heidi Ullrich - ICANN Org: Should there be some text here noting how technology could allow At-Large to be more agile in how they develop policy advice?
01:26:53 Hadia Elminiawi (ALAC-member): Suggestion : While ensuring these tools are optimized to increase engagement for stakeholders with limited bandwidth and designed with universal accessibility in mind to accommodate people with disabilities
01:27:07 Heidi Ullrich - ICANN Org: Noted.
01:27:40 Judith Hellerstein: Reacted to "Should there be some..." with 👍
01:28:03 Hadia Elminiawi (ALAC-member): Just trying to reflect what I understood from Judith
01:29:26 Judith Hellerstein: Reacted to "Just trying to refle..." with 👍
01:29:32 Judith Hellerstein: Replying to "Just trying to refle..."
Thanks Hadia
01:29:46 Hadia Elminiawi (ALAC-member): Reacted to "Thanks Hadia" with ❤️
01:36:57 Cheryl Langdon-Orr: no more needs to be said the proposed 5's became the 3.2's
01:37:10 Cheryl Langdon-Orr: 2.3's sorry
01:38:54 Cheryl Langdon-Orr: add 'Including the ICANN Regional Engagement Teams'
01:39:36 Cheryl Langdon-Orr: Replying to "add 'Including the I..."

is what I hear Vanda saying

01:40:44 Hadia Elminiawi (ALAC-member): okay
01:40:47 Hadia Elminiawi (ALAC-member): clkear
01:40:50 Hadia Elminiawi (ALAC-member): clear

01:49:28 Heidi Ullrich - ICANN Org: I think it is showing the OFB-WG the near final version
