Alice Jansen:Welcome to the ATRT2 - Call 08!

Alice Jansen>Please mute your computer speakers

demi getschko:Hi everybody

Alice Jansen:This session is now being recorded.

David Conrad:brian: can just barely hear you

Alice Jansen:Brian, could you speak closer to the mic?

Olivier Crepin-Leblond:Brien -- your voice is dropping out from time to time

demi getschko:not hearing very well... volume varying

Olivier Crepin-Leblond:I think one of the problems is you're not using a headset so the system s trying to cancel echoes & actually cancelling your voice altogether.....

Alan Greenberg:Sorry for being late. On now.

Alan Greenberg:Both brian and David very hard to hear.

Steve Crocker:I am now listening via the net. I hung up my dial-in connection

demi getschko:not really, Olivier. But is better now..

Alice Jansen:I am having trouble hearing you, Brian :(

Alice Jansen:You all have scroll control.

Larisa Gurnick:Staff has captured some questions based on WS calls and other discussions. Would it be useful for you to see this listing?

Larisa Gurnick:Staff is working on responses to the second set of questions and will have their responses ready by Durban.

Larisa Gurnick:Pertaining to WHOIS and SSR

demi getschko:?

Olivier Crepin-Leblond:have we lost Brian?

demi getschko:I'm here

Alice Jansen:Brian, on t'a perdu!

Steve Crocker:I'll be in Durban but heavily scheduled on other matters. I'll participate when I can. I am still working on my schedule. For the most part I will NOT be able participate :(

demi getschko:yes

Olivier Crepin-Leblond:I can't hear her either

Olivier Crepin-Leblond:aah better

Alice Jansen:Thank you for participating!
