Ron A:Hi Charla, Can we get names instead of numbers for the Adobe people...?Thanks!

Ron A:In fact, i see my number there... not sure why?!

Jonathan Zuck:Indeed

Jonathan Zuck:Did you connect via Adobe first and have them all you or did you call in first?

Charla Shambley:Ron, let me know which number is yours ... 917 (?) and I can merge your names

Ron A:I went into adobe and then dialed in... Yes, the 917 is me.

Ron A:Thank you. And the 310 numbers? Can you let Charla know so she can merge you accordingly?

Christopher Wilkinson:Could I please have a dial out.. The automated option does not work:

+34965793693

Charla Shambley:I will have the Adobe room dial out to you, Christopher.

Rudi Vansnick:i've dialed in with skype

Charla Shambley:Christopher - could you provide your full phone number in order to dial out to you since I am receiving the same error message.

Rudi Vansnick:is it normal i hear a lot of background noise ?

Christopher Wilkinson:I am waiting for a dialout. CW

Christopher Wilkinson:I can hear, but adobe does not accept the Mac mike, which is why I ask for a dialout.

Larisa Gurnick:we can hear fine

Christopher Wilkinson 2:Presentation is breaking up.

Rudi Vansnick:not for me

Jonathan Zuck 2:Need to step away for a minute. Ron will manage the Q&A. thank you.

Ron A:you sent this to our private chat... send to Everyone.

Ron A:Got it. Will manage list in your absence.

Larisa Gurnick:Jeremy, can you comment on how the definition of consumer impacts the scope and method of the research

Jonathan Zuck 2:Ouch!

Ron A:The question for us is what information we can glean from this baseline research and follow on research...?

Ron A:Good information is valuable to ICANN

Jonathan Zuck 2:Of course. I was just saying ouch about the comparison to space exploration ;)

Christopher Wilkinson 2:Nathalie not audible

Phil Buckingham:Q what population sample by country are we talking about for a representative sample .
?

Jeremy Rosner:my connection died; kristi and brian can answer

Rudi Vansnick:not so evident to find a correlate number as not every country has the same internet penetration

Jeremy Rosner:can your system call me back, or is there a number I can call to?

Charla Shambley:Yes, I can have Adobe dial-out to you

Ron A:@ CW: I understood from Jeremy that he was extremely comfortable finding respondents

Phil Buckingham:JZ + 1 all about change so we need two surveys

Jonathan Zuck 2:Definitely would need 2 surveys

Rudi Vansnick:Jonathan : what would be the delay between both surveys ?

Charla Shambley:Please press *6 if you are not speaking

Ron A:+1 Margie re GQR

Nathalie Coupet:+1 Margie

Jeremy Rosner:i just got disconnected again, so Kristi and Brian can answer

Jonathan Zuck 2:No just same questions

Charla Shambley:@Jeremy - I am having the Adobe room call you back

Christopher Wilkinson 2:The competition baseline is essential for future consideration. The data is necessary e.g. prices..

Ron A:Fully support a recommendation to Board pre-SIN, so that the Board can make the determination there.

Rudi Vansnick:+1 Evan

Larisa Gurnick:Please note that there are due dates for submission of information for Board consideration. I will confirm these dates and share with the group. These dates are in early March.

Nathalie Coupet:+1

Phil Buckingham:Evan + 1 we need to track actual data stats now . Cant be doing this after the fact

Rudi Vansnick:+1 recommendation

Evan Leibovitch:I support the recommendation

Larisa Gurnick:Items for the Board agenda need to be submitted by Friday 28 February. The deadline for submitting board materials for approved agenda items is Tuesday 4 March.

Jonathan Zuck 2:Thanks

Jonathan Zuck 2:Running for a second. Ron, hold this vote, please.

Rudi Vansnick:price conditions are indeed at very high level

Rudi Vansnick:maybe we have to look for alternatives

Phil Buckingham:is there a budget set aside for this by ICANN ? .

Ron A:@ Phil: Not that I am aware.

Ron A:We would be making a recommendation to spend...

Nathalie Coupet:Maybe someone could stay in touch with the surveying firm so we could be updated on difficulties?

Phil Buckingham:@ Ron - need to do this in Singapore

Ron A:@PB: agreed. SIN is thekick off - if approved.

Phil Buckingham:FY 14 ICANN budget already approved ????
