Charla Shambley>Please press *6 to mute your line.

Ron A:Good day all. Dialing in now.

Reg - M+M:Is there no audio??

Ron A:I think we are waiting to start, Reg.

Rudi Vansnick:i've just dialed in

Jonathan Zuck:I'm here. I say we wait another 3 minutes or something.

Rudi Vansnick:the audio connect was much easier to use ;-(

Christopher Wilkinson (CW):Just testing sound. The Dialout number does not work from here.. I have made popcorn.

Phil Buckingham 2:Apologises for my late arrival

Christopher Wilkinson (CW):The survey of ISPs and Regoistrars makes more sense to me.

Christopher Wilkinson (CW):you can't hear me. I shall dial in. Go ahead with other speakers

Rudi Vansnick:ISP's & registrars are not covering everything we need to get information on : my personal thought

Ron A:@ Margie: What would you require from the volunteers specifically?

Rudi Vansnick:good question Ron : depends on what is expected

Rudi Vansnick:as a vice-chair i'm willing to help with this

Ron A:Add me to the list of reviewers, Chair.

Ron A:@ Jonathan: Rudi has also volunteered

Christopher Wilkinson (CW):A detail: the brown background is so dark and the font is so small that actually it is not legible.

Rudi Vansnick:brb

Phil Buckingham:Yes Ron EAP . My company is tracking this data .

Ron A:Good point Christa - introductory pricing vs longer term pricing is an excellent comparison.

Ron A:Application fees at \$200+ are significant. We need to track this as well.

Ray Fassett:I accept

Phil Buckingham:Need to track the prices and registrations on existing TLD like .com with the impact on them from introduction of new TLD . Can I review also ?

Ray Fassett:)

CW:What are QR codes?

Rudi Vansnick:sorry was on a phone call

Ron A:Agree with CW - not sure how these metrics affect ICANN and Consumer Trust.

Rudi Vansnick:i'm already contacting Olivier

Phil Buckingham:Ron +1

Brian Beckham:Agree re: search nuance, Jonathan, there may be some relations, but it is not necessarily a linear causal relationship.

Ray Fassett:I agree with Jonathon

Rudi Vansnick:Olivier is not yet available, nor is Evan, I'll contact them later today anyway

Rudi Vansnick:so it is about 5.2 / 5.3 and 5.4 where we need input from Olivier/Evan

Ron A:That is correct Rudi

CW:I abstain, for reasons already evoked.

Phil Buckingham: disagree

Reg - M+M:Agree.
