63	Voter: Garth Graham It is easier for people living daily life online at the local community level to identify with the broader question of the future of the Internet for their community than the narrower questions/policies related to ICANN's mandate. While we are highly sensitive to the issues of an open Net and committed to it's protection, the gap between awareness of "specific ICANN- related matters" and local action on that commitment is huge. Our members are grounded in the realities of the ordinary Internet user, particularly the user who is marginal to digital economies. The problem for us is not so much building capacity. It's finding capacity within our membership to bridge the gap between the local and the global. So far, we've been able to do that.

Activities that will empower the internet users on what ICANN is all about and how they can best organise themselves into formal groups as ALS that will spread the information about ICANN. There must be a general assembly of each RALO to review both the rules and activities of each RALO and resolutions adopted will be binding and acceptable to ICANN Board.

95	Voter: Sylvia Herlein-Leite Consideramos que las estructuras At-large son un puente entre ICANN y los usuarios finales y es por eso que es vital que en primer lugar las ALSes tengan conocimiento cabal de lo que es ICANN y cómo esta puede ayudar a los que están en la base de la pirámide; además de poder transmitir esos conocimientos y así poder también traer para ICANN nuevos miembros formadores de opinión de la sociedad civil. Por tanto las actividades que deberíamos realizar en esta cumbre deberían ser en 2 vías: que las ALSes conozcan cómo funciona ICANN y cómo ICANN puede ayudarlas a cumplir su papel y a su vez que ICANN conozca el ámbito y las necesidades de las ALSes para que les pueda brindar una ayuda real a estas organizaciones.

At the same time, many ALSes don't know how to best represent themselves unless ICANN tells them what it needs from the end-user community..

45	Voter: Yrjö Länsipuro In order to represent the end users of their country vis-a-vis ICANN and its other stakeholders, ALS's should be knowledgeable about the real Internet-related interests, needs, problems and wishes of the end users, practically the entire population of their country. What methods can be used to gather and aggregate relevant information based on facts and not just on assumptions? Are ALS's able to use results of relevant research?  Since ICANN has globalized its operations significantly since the first ATLAS, it would be interesting to find out whether ALS's feel this has of help to end-users in their countries. How the globalization efforts should be improved from their perspective?  Is there need for harmonizing At Large processes across different regions?

1	Voter: Chris Grundemann n/a
2	Voter: Jessel Ackbarali n/a
3	Voter: Janvier Ngnoulaye - Disposer d'une politique qui faciliterait et encouragerait les Africains à devenir des registrar des noms de domaine gTLD - Encourager le développement des contenus et leur hébergement à l'intérieur du continent Africain, ceci pour éviter le transport du trafic inutile hors du continent.
4	Voter: Greta Jeske n/a
5	Voter: Pierre Dovonou Lokossou Comme tous les participants à ce sommet ne seront pas des techniciens de l'Internet, il serait bien d'organiser un webinar sur les thèmes techniques qui seront abondamment utilisés au cours du sommet.
6	Voter: Alan Greenberg N/A
7	Voter: Breda Kutin No
8	Voter: Soraya Hasnaa None
9	Voter: Annette Muehlberg I am positive, that the European RALO will be discussing and helping to prepare the Summit. It would be helpful to have a date for all RALOs at the beginning of next year - maybe March - to come up with proposals for Workshops and further activities, so that the we can Support the (global) planning Team.
10	Voter: Johnny Laureano Impulsar la aprobacion de planes estrategicos regionales, pienso que cada RALO debe tener una orientacion definida que permita y garantice: 1. Amplificar los niveles de participacion de ALS nuevas. 2. Capacitacion y entrenamiento a lideres de cada pais de la regiones (2-4 personas por pais). Entrenados en sus propios paises o en sub regiones. 3. Proveer una asignacion economica a un especialista ICANN hasta tener un nivel de conocimiento apropiado a los objetivos del ICANN 4. Instalar una oficina ICANN en cada pais de las regiones, esto puede ser subvencionado por ICANN o financiado por las ALS.
11	Voter: Annalisa Roger Do not have closed doors - In Mexico, I missed much of the meetings, because I thought it impolite to open closed doors. One way around this is to have a door man stand by the closed door (if the door must be closed) to welcome attendees. Or at the least, consider a welcoming sign on the door instructing people to come on in.
12	Voter: Moataz Shaarawy N
13	Voter: Jerry Tam It is important to make every ALS committed to the problem raised. Different ALS may only be interested in topics of their and their's region own concern. The summit may want to have sessions that are of voluntary participation (those who are of particular interest and relevance) and sessions that are compulsory (with more general topics that are relevant to everyone)
14	Voter: Julian Vincent no
15	Voter: Michael Snell No comments beyond the inputs already provided.
16	Voter: Vanda Scartezini completo en Buenos Aires participación en 40 meetings, y larga experiencia en diversas comunidades. así que no tengo dudas específicas pero puedo colaborar con futuras sugerencias al proceso de la cumbre.

17	Voter: Hawa Diakite je pourrais aider à la definition du contenu des programme du sommet
18	Voter: Hadja Ouattrara n/a
19	Voter: Yuliya Morenets None
20	Voter: Fouad Bajwa Kindly initiate the visa process well before the summit because members from developing countries will require making their visa applications for UK atleast 3 months before the summit.
21	Voter: Dana Perry n/a
22	Voter: Nimrol Agarwal I would request that the programmes are evenly spread and not clubbed too close to each other in order to facilitate proper participation in most of the events. In last couple of event I have witnessed that some of the good events are organised at the same time, making one loose out on one or the other event participation.
23	Voter: Plamena Popova -
24	Voter: Alan Levin n/a
25	Voter: William Tibben No
26	Voter: Olga Cavalli Agradecemos que ICANN haya convocado nuevamente a esta cumbre.
27	Voter: Garth Bruen Have board participate remotely so they can see how hard it is for other participants.
28	Voter: Joly MacFie 1" appropriate color buttons for RALOs. Elon or similar video team capturing brief video interviews with participants.
29	Voter: Dick Kalakman This field can't be left empty.
30	Voter: Adrian Carballo Felicitó a los que están liderando esta Cumbre, y quedo a disposición para lo que consideren que pueda colaborar y este a mi alcance.
31	Voter: Vittorio Bertola -
32	Voter: Amr Hamdi n/a
33	Voter: Oksana Prykhodko I was a EURALO Secretary for two years. And only after GA in Lisbon I realized what I had to do. Hoping London will be even more encouraging gathering.
34	Voter: Christoph Burch no

36	Voter: Melody Palmer Nothing further to share at this time

37	Voter: Roberto Gaetano None
38	Voter: Darlene Thompson n/a
39	Voter: Valentina Pavel It might be useful to make several key informational materials related to the Internet and promotional materials to hand out (for raising awareness).
40	Voter: Aislan Vargas Basilio Estuve en la Cumbre de Mexico y fue un éxito tanto en participación como el reflejo en los usuarios de internet de nuestra región. Acreditamos que la proxima será un aporte mayor para toda la comunidad.
41	Voter: Michael Maranda can we have a shared vision of what makes a successful summit in this context? do we have a shared understanding of the successes of At large community w/in ICANN and for Internet Users generally? Do we have shared sense of challenges faced? Do we have a good plan for long term knowledge base in mutual support of At Large aims?
42	Voter: Lutz Donnerhacke Communication with LAE and governments. They claim to much rights.
43	Voter: Anupam Agrawal NOT at this time.
44	Voter: Sivasubramanian Muthusamy For first time attendees, pre_event orientation on how At Large works and how ICANN works would help.
45	Voter: Yrjö Länsipuro As the Associate Chair of the ICANN NomCom, my possibilities to actively participate in ATLAS II during the latter part of the ICANN meeting may be limited. That's why I have told the At Large staff that there will be a secondary representative, the name of which is not yet known, and who - instead of me - should receive ICANN At Large funding, because I'm already funded via the NomCom
46	Voter: Didier Kasole le suivi des decisions qui seront prises pendant le sommet
47	Voter: Sayuni Kimaro I was introduced to JUSTA-AFRICA by the late Aloyce Menda. He was the Coordinator of Journalist's Union for Science & Technology Advancement Africa. I'm honored to know that I am still contacted by the ICANN. Currently I'm in the U.S.A pursuing my masters in Marketing and Communications. This include a lot of internet working, especially knowledge on conducting e-commerce. Not all Tanzanian people are internet user friendly, and therefore the knowledge acquired here and through the summit will help many amongst others.
48	Voter: William Drake Nope
49	Voter: Diego Acosta Bastidas GRUPO DE TRABAJO LEGAL: sería muy importante que exista un grupo de capacitación y trabajo legal para un mayor conocimiento de los procesos jurídicos del Ican, especialmente relacionados con los usuarios de Internet; pueden contar conmigo para ser un Coordinador de ese grupo en la región de Latinoamérica y el Caribe.
50	Voter: Jose Barzallo SERÍA IMPORTANTE CONTAR CON LA DEFINICIÓN DE LA CUMBRE Y LA PARTICIPACIÓN DE LAS ALS LO MÁS PRONTO POSIBLE
51	Voter: Mohammed El Bashir EnGage with the Internet at-large users directly by extensively using Social Media
52	Voter: Wladimir Davalos Eventos de integración
53	Voter: Jordi Iparraguirre n/a
54	Voter: Bikram Shrestha

	ALS have to cover over all benefit of every individual internet users.
55	Voter: Lianna Galstyan I only once have a chance to participate in a Summit and was much impressed of the show case where every ALS were represented. Besides, it may be good to have a meeting where all ALSs can represent the problems and the ways of solution they have for them.
56	Voter: Humberto Carrasco no
57	Voter: Sandra Hofericher This summit should not be used for educational capacity building, but for dialogue and networking only. Other ICANN stakeholder groups should be invited and should be part of the discussion. Interaction with them should be fostered.
58	Voter: Robert Guerra N/A
59	Voter: Ellen Strickland I'd appreciate a participatory and transparent process for the planning of the programme and summit, to develop ALS ownership of elements of the event and its content.

64	Voter: Garth Graham nothing specific at this time
65	Voter: Khalid Bin Thani i can not visit last event because the paper late 1 month please send all paper and give us time to make visa
66	Voter: Lance Hinds None
67	Voter: Louis Houle Documents de vulgarisation/communication pour aider les RALO à faire la promotion de l'ICANN (outreach). Incitatifs pour recruter des membres, entre autres. Améliorer les budgets des RALOs.
68	Voter: Javier Eduardo Chandia Rojas Pienso, que el reunir a varios países, especialmente a entidades que representan a los usuarios de Internet, debe dar como resultado un manifiesto o un documento firmado por todas estructuras AT-Large sobre qué queremos de Internet a nivel mundial y cómo debe ser entregado ello al usuario para mejorar su calidad de vida.
69	Voter: Natalia Enciso Seria bueno que existiera actividades de integración. Para conocernos mejor entre todos los miembros.
70	Voter: Alan Skuce Due to other commitments, I am not sure how much time prior to January I can give to this but should have much more in 2014.
71	Voter: Monique Chartrand -
72	Voter: Werner Hülsmann n/a

73	Voter: Narine Khachatryan Participation and engagement of young people in policy discussions (in frames of Children's Forums at ICANN) would be very useful.
74	Voter: Per Darnell We are an extremely small ALS, from a country with 1200 people. That means that we have very small resources both for knowledge input and for travel expenses.
75	Voter: Matthieu Camus tables rondes et débats avec le public, rencontres entre acteurs de la société civile, du monde politique et des entreprises, rencontres entre représentants des ALS pour échanger sur leurs pratiques, sur leurs difficultés et les solutions trouvées pour les surmonter, sur leurs rapports avec les acteurs techniques et économiques locaux

80	Voter: Patric Vande Walle n/a
81	Voter: Paul Chow Nil
82	Voter: Peters Omorabon Will this summit be continuous? Why not increase the representation of ALS instead of just one person? This summit is supposed to galvanise the regional communities to be fully involved in ICANN program's and activities, as such, there is need to increase participation.
83	Voter: Kerry Brown n/a
84	Voter: Miguel Perez Subias SI
85	Voter: Myles Braithwaite No current further thoughts.

89	Voter: Satish Babu None
90	Voter: Gilberto Lara Ninguna.
91	Voter: Rudi Vansnick none
92	Voter: Wolf Ludwig ATLAS II must be exciting and challenging for ordinary members and not only for the usual suspects and experts!

93	Voter: Eduardo Diaz It will be great if there is a "mentoring" program in place to "hold-hands" and guide new comers through the ICANN week.
94	Voter: Sunil Lal -
95	Voter: Y.J. Park If possible, to raise awareness of At-large here in Korea, it would be ideal to have funding support for at least two reps from OSIA.
96	Voter: Carlos Alberto Watson Carazo Me gustaría que en la cumbre, se tenga espacio para discutir como las ALS han tratado el problema ligado con la seguridad y la estabilidad del Internet en los últimos meses, y de qué forma los gobiernos de sus países han abordado el tema ( NSA National Security Agency ) y cuál es la posición de ICANN si existiera una posición.
97	Voter: Randy Glass n/a
98	Voter: Maricarmen Sequera Buzarquis n/A
99	Voter: Niran Beharry AT THE LONDON MEETING A COMMONWEALTH DNS FORUM IS PLANNED, IT WOULD BE GREAT FOR PARTICIPANTS TO BE ABLE TO ATTEND THE DNS FORUM TO GET A SENSE OF THE DIVERSITIES WITHIN THE COMMONWEALTH AND MECHANISMS OF MUTUAL SUPPORT
100	Voter: Otunte Otuneh I am ready to be part of the team that will plan the summit. I will suggest that there should be room for remote participation.
101	Voter: Sylvia Herlein-Leite Queríamos aprovechar este espacio para hacerles saber que estamos orgullosos de ser parte de ICANN y haber tenido la oportunidad de ver todos los esfuerzos que año a año desde 2007 venimos observando. Realmente la organización ha crecido mucho y superado grandes obstaculos en pos de una organizacion mundial donde cada vez más los usuarios finales tienen canales reales de participación. La realización de esta segunda Cumbre es la muestra del interés real de ICANN por escuchar a los usuarios finales de todo el mundo, enhorabuena!!!!
102	Voter: Antonio Medina Gomez Participación activa en las diferentes reuniones de trabajo
103	Voter: Sergio Bronstein Dado mi experiencia en dos cumbres, sería bueno que distribuyan un glosario de términos y siglas para que los participantes debutantes puedan comprender mejor lo que se discute. Adicionalmente a ello, opino que sería provechoso remitir a quienes vamos a participar resúmenes de los temas que se abordarán y de las decisiones que se esperan que tomemos.
104	Voter: Arnold Mulenda Yamukandu Le questionnaire est bien élaboré.
105	Voter: Hong Xue The survey design is flawed for it keeps asking me to come back to correct.
106	Voter: Ali Almeshal Nothing
107	Voter: Alejandro Pisanty El éxito de la Cumbre deberá ser medido por el aumento en efectividad y la apertura a la rotación de mandos.

122	Voter: Baudouin Schombe -une visite guidée des ALs dans les entreprises GSM, les opérateurs Télécoms, les Institutions officielles des TICs; -construire des partenariats ALs-secteur Public-secteur privé.
123	Voter: Roosevelt King Too many rules are ambiguous and subject to diverse interpretations. This leads to much debate, discussion and some RALOs making decisions outside the ambit of the RALO. There is a lack of understanding of the role of the RALO and we are gradually moving away from the purpose of the RALO as had first been envisioned as a point of input for ICANN. Nothing wrong with them doing other things to boost community cohesiveness, but the main role should first be fulfilled.
124	Voter: Mahmoud Lattoufi NA
125	Voter: Monique Epstein ...
126	Voter: Michel Tchoung Pour les pays du Sud, faciliter la démarche administrative Inviter les organisations régionales (UE, UA...) à une table ronde nécessaire pour faire le point sur l'état des lieux de l'Internet dans leur région
127	Voter: Siranush Vardanyan N/A
128	Voter: Cheryl Langdon-Orr Ensure participants also experience the ICANN Meeting as much as possible and as widely as practical.
129	Voter: Maureen Hilyard

	There is so much to learn about ICANN when you are a newbie... and to try to learn it all in one week is a big call and participants are sure to feel overloaded with information at the end of it all. Therefore, the information that they are given needs to be in small chunks with some practical applications demonstrated. Are all the sections operating in the same week? or perhaps videos could be made of the different sections (ALAC, ccNSO, GAC, gNSO, etc) in action - documentary style - after which ALSes can actually talk to each other about what they understand to be happening, and perhaps create some questions that they can pose to a panel from that particular section, about what they were discussing, how decisions are made and why, etc etc ? That would be an on-site activity, but perhaps they could be given follow-up activities after the Summit... as an e-learning class to find out more about ICANN from the website - which of course needs a bit more work and updating so that they can find the information they need - we don't want to set them up to fail and not want to be involved any more :-(... and to feedback an evaluation of what they got the most value from and what else they need to know after having been to the Summit
130	Voter: Christopher Wilkinson Regular progress reports in press release format during the conference.
131	Voter: Raul Bauer N/A
132	Voter: Thomas Lowenhaupt We need to know that ICANN is presenting ATLAS to the world as a global effort to engage the bottom in the governance process. ICANN needs to issue a statement that it expects the ATLAS to have an impact on the operation of ICANN. We need to know that ICANN will duly consider the results of ATLAS.
133	Voter: Omar Kaminski -
134	Voter: Juan Manuel Rojas Es importante que se confirme cuántos representantes por cada ALS pueden asistir, con el fin de definir quienes podrian ser.
135	Voter: Carlos Vera Facilitar los procesos de VISA
136	Voter: Seth Reiss I would enjoy assisting in shaping the Summit activities and structure.
137	Voter: Winthrop Yu Kindly note that any one of the three (3) alternate representatives of ISOC-PH would be suitable (and younger) representatives of this ALS.

	Comments
1	Voter: Jessel Ackbarali n/a
2	Voter: Annette Muehlberg Not to have ICANN documents in German and not to have the possibility to give inputs in German is still one of the biggest challenges - though we all know that this is hard to change. ICANN related matters are of interest, but they are normally not as close to the members as other internet-user related issues.
3	Voter: Annalisa Roger ALAC views and papers to ICANN take too long to put together and are often inconclusive or non-specific. I think the RALOs should each put together their own views, letters, and documents, and ALAC should submit 5 RALO views rather than just one for the whole globe? No one else can come together in one voice why should ALAC be expected to? Also 1 paper, 1 voice for ALL INTERNET USERS around the world? business owners? Non-profit Associations? Academics, ISOC Chapters. etc.? That's not effective.
4	Voter: Yuliya Morenets None
5	Voter: Dana Perry n/a
6	Voter: Alan Levin The governance structures are too bulky. Better leadership needs nimbler structures. More global elections!
7	Voter: Garth Bruen ICANN does not focus on the critical subject matters, things which impact consumers and failures within ICANN
8	Voter: Dick Kalakman Lack of understanding of international politics. Democratic legitimation.
9	Voter: Oksana Prykhodko Informational tsunami, lack of understanding how our input can influence on ICANN decision making
10	Voter: Valentina Pavel It would be a good idea to have more organized meetings (I am speaking from the experience of the ICANN meetings at the EuroDIG) and clear working processes and goals

	(with deadlines). At the same time, a reward mechanism for ALS members that are active would clearly create a positive impact. Also, another suggestion would be to organize activities that will help participants to know each other better (not the superficial informal dinners) and to be more eager to work together and keep in contact.
11	Voter: Aislan Vargas Basilio Idioma
12	Voter: Sivasubramanian Muthusamy Lack of resources to organize regular face to face meetings and events 5
13	Voter: Didier Kasole Sur tous les continents tres peu de gens sont au courant meme de l'existence de ICANN. Et encore moins des problemes relatifs a la gouverance de l'Internet.
14	Voter: Louis Houle Ce n'est pas tant le manque de compréhension des questions que la trop grande complexité de la structure et du statut même de l'ICANN. De plus, dans leurs communications, l'ICANN et toutes ses structures utilisent un vocabulaire hermétique et trop d'acronymes qui découragent les nouveaux venus. De nouveaux comités ou sous-comités sont créés sans que l'on précise rigoureusement leur rôle et responsabilités.
15	Voter: Natalia Enciso Complejidad de la tematica y los procesos en Icanm.
16	Voter: Glenn McKnight Clear objectives and goals for the summit
17	Voter: Gilberto Lara Ninguno.
18	Voter: Wolf Ludwig Structural problems of many ALSes to get more involved in their RALO and ALAC
19	Voter: Niran Beharry LACK OF OUTREACH AND TOO MUCH LEGACY INFORMATION REQUIRED BEFORE PARTICIPANTS CAN CONTRIBUTE EFFECTIVELY
20	Voter: Arnold Mulenda Yamukandu Les lignes de communication nous pose probleme pendant les Teleconferences mensuelle.
21	Voter: Alejandro Pisanty ICANN es mucho más relevante que At-Large y ALAC para nuestros miembros y representantes. La disfuncionalidad de LACRALO y su falta de producción de "policy" es alarmante.
22	Voter: Carlton Samuels N/A
23	Voter: Karaitiana Taiuru We dont have an issue at the moment.
24	Voter: Siranush Vardanyan No challenges for participation are identified
25	Voter: Maureen Hilyard The technology task force needs to be ready to demonstrate different platforms that developing countries (and Australia? because Cheryl was also having problems with Adobe last week) can use that enable all the activities that we currently enjoy using Adobe Connect - if it was working properly for all users. Or perhaps people can connect to an online meeting through a range of platforms - would that be possible?
26	Voter: Christopher Wilkinson Lack of continuity. This is only the second ATLAS. (first: Mexico City 2009 - ?) Few ALS delegates will have been before to an ICANN. EURALO conference calls etc. are useful but give the newcomer little idea of what is going on.
27	Voter: Thomas Lowenhaupt 1. We're a new ALS and the ALS learning curve is steep. 2. When I explain to prospective members that all this bottom up leads to one voting member on the ICANN board of directors jaws generally drop.

1	Voter: Annette Muehlberg The Need for Capacity building is rather important on Special issues. But we do handle this by asking experts - in General within the EURALO. But of course, some more short Information Sheets on e.g. the difficulties and issues dealt with the migration from IPv4 to IPv6 would be helpful
2	Voter: Annalisa Roger NARALO needs funds to give to the ALS's for capacity building and ICANN education, and travel.
3	Voter: Vanda Scartezini en mi organización, como somos todas ejecutivas en las areas de TIC el mayor obstáculo es sin duda el tiempo y por veces el costo de la participación en los meetings de iCANN.
4	Voter: Yuliya Morenets None
5	Voter: Dana Perry n/a
6	Voter: William Tibben Ensuring there is a follow up activity to the Summit that requires ongoing work and engagement with others - perhaps a post SUMmit +6 month report back
7	Voter: Garth Bruen My membership is extremely frustrated with ICANN's lack of adherence to the AoC or its other public pledges.
8	Voter: Joly MacFie Outreach
9	Voter: Oksana Prykhodko We highly appreciate Sandra's initiative with ICANN Academy. But a lot of us need ICANN kindergarden (or emergency help center, especially in different languages)

10	Voter: Dragoslava Greve Public Awareness skills
11	Voter: Valentina Pavel - volunteer management - advocacy - explaining Internet issues to regular users
12	Voter: Didier Kasole La structure regionale AFRALO semble de plus en plus ferme a un petit groupe. Il serait bon de l'ouvrir effectivement et de permettre la divesite d'opinion
13	Voter: Natalia Enciso Comprension y regals de procedimiento dentro de Icann. La parte practica de la comprension de las politicas. Casos de ejemplos practicos de como las politicas de icann mejoran o desfavorecen a los usuarios. Llevar a la vida practica y de día a día las influencias de las politicas de icann para los usuarios.
14	Voter: Monique Chartrand La possibilité d'être soutenu pour tenir des ateliers locaux et aussi que l'ICANN soient présents localement.
15	Voter: Patric Vande Walle While all the above are potentially interesting subjects in their own right, we lack the resources, both human and financial, to have a person dedicated to deal with ICANN-related matters. It is not an issue of education or capacity building, but rather a lack of qualified human resources, which purely volunteer work cannot cover.
16	Voter: Wolf Ludwig Institutional support from ICANN for outreach
17	Voter: Niran Beharry UNDERSTANDING THE POLICY DEVELOPMENT PROCESS AND HOW TO CONTRIBUTE EFFECTIVELY USING TOOLS SUCH AS WIKIS ETC
18	Voter: Arnold Mulenda Yamukandu Merci
19	Voter: Alejandro Pisanty No tenemos problemas en esta área. Los tienen At-Large, ALAC y LACRALO.
20	Voter: Carlton Samuels N/A
21	Voter: Maureen Hilyard (5) understanding the structure of support within ICANN for ALSes to seek answers to the questions that they have? These may be about who to go to for policy or technical support? The knowledge base about each section needs to be more user friendly and accessible. (4) acronyms - there are still heaps of acronyms that are used in workspaces by some of the long-term personnel that are not in the acronyms list - there used to be a link to this on the home page but it isn't there any more
22	Voter: Christopher Wilkinson Small ALS with limited human resources (especially time). To broaden participation beyond the usual few, essential to be able to work in French.

1	Voter: Johnny Laureano ICANN tiene como lema, "un mundo, una internet" un factor clave es promover en cada pais de la region ( LACRALO* ) la participacion del ciudadano comun en su construccion, desde su rol de usuario final, balanceando los intereses de las empresas, gobiernos u otros poderes facticos. Sugiero utilizar el gobierno amplio en la

	administracion de los ccTLD el RFC 1591 define que "debe" hacerse " para "servir a la comunidad", estamos ahora en la oportunidad de implementar el "como" debe hacerse.
2	<p>Voter: Annalisa Roger</p> <p>Hello, I was the SFBayISOC ALS member representative who was mostly self-funded at ICANN meetings due to also representing a new gTLD applicant company. As the founder of the company, I was therefor self funded for 16 meetings vs. 2 ALAC funded ones, I am no longer a new gTLD applicant, and therefor no longer have a business reason to fund myself to go to ICANN meetings. SFBayISOC does not have a funding, and therefor I do not expect to be attending NARALO meetings any more. There is no one on the board of our ALS who attends ICANN meetings, however, there are some members who do. I have never seen them attend a NARALO or ALAC meeting, but I will look in to it for the possibility of finding a new SFBayISOC representative for NARALO. If there was funding for the London Summit, that may make it more doable for a representative to come, especially for someone new to ICANN. Just a thought.</p>
3	<p>Voter: Jerry Tam</p> <p>It may be good to organize some pre-summit discussion or to assign some reports to be handed in.</p>

13	<p>Voter: Oksana Prykhodko</p> <p>Communication skills - each newcomer to At-Large has to pass communication test: For example, for me it means:</p> <ol style="list-style-type: none"> <li>1. Do I have adequate hard ware?</li> <li>2. Do I have adequate soft ware?</li> <li>3. Is this soft ware is ligitimate in my country (for example, Adode without my personal bill for it is illegal in Ukraine)?</li> <li>4. If I have any problems with this software, what does it mean? <ol style="list-style-type: none"> <li>4.1. This soft ware is broken (pirate or something else)</li> <li>4.2. 24	Voter: Javier Eduardo Chandia Rojas Mi solicitud es que de esta cumbre salga un documento de los representantes de los usuarios de Internet , firmado por todos ellos y que tienda a valorar a Internet como el medio más transparente, participativo y democrático .
25	Voter: Natalia Enciso Felicidades por el trabajo .
26	Voter: Patric Vande Walle gTLD related issues like new gTLDs, contractual matters, etc are purely anecdotal for most of our membership. Likewise, internal processes, rules and procedures, governance in ICANN, elections of representatives in hundreds of committees, working groups, etc are something we happily delegate to the ALAC. These subjects are too time consuming if we want to provide useful input. We are more interested in the decisions taken by ICANN and their potential impact on our lives.
27	Voter: Paul Chow Nil
28	Voter: Peters Omorabon We will require letters of invitation for members that want to come on self sponsorship.

45	Voter: Maureen Hilyard I don't think I have anything else to add at this time :-) Thanks for asking :-)
46	Voter: Christopher Wilkinson How will hotel booking be arranged and funded by ICANN? How many people are expected from the ALS? Avoid possible criticism that this is just another meeting for the usual group of people who would probably attend an ICANN meeting in any case. Take care to monitor and participate in parallel IG processes: IGF, Brazil, ITU etc. So that ATLAS can start from full knowledge of the evolving situation.
