**ITU Plenipotentiary Conference**  
 20 October - 7 November 2014  
 Held every four years, the plenipotentiary is considered the top policy-making body of the ITU. During this session, Member States set the ITU's general policies, adopt four-year strategic and financial plans, and elect senior management and other officials. ITU Sector Members, Regional Telecommunication and Intergovernmental Organizations, and the United Nations and its specialized agencies may also attend the Conference as observers. As noted on the ITU website, "The Plenipotentiary Conference is the key event at which ITU Member States decide on the future role of the organization, thereby determining the organization's anility to influence and affect the development of Information and Communication Technologies (ICTs) worldwide."

**World Economic Forum - High-Level Panel on Global Internet Cooperation and Governance Mechanisms final meeting**  
 3-4 May 2014  
 The panel's third and final meeting will be hosted by the World Economic Forum in Dubai.

**Global Multistakeholder Meeting on the Future of Internet Governance**  
 23-24 April 2014  
 The global conference represents an opportunity for global stakeholders to engage in a collective dialogue on evolving Internet governance. It will focus on proposing principles and institutional frameworks for multistakeholder Internet governance. The conference will be held in Sao Paulo-Brazil and is a partnership between CGI and 1Net.

**IGF - Bali**  
 22 - 25 October 2013  
 Open forum for multi-stakeholder policy dialogue

**Montevideo Statement on the future of Internet cooperation**  
 7 October 2013  
 The leaders of organizations responsible for coordination of the internet technical infrastructure globally have met in Montevideo-Uruguay to consider current issues affecting the future of the internet. The Internet and World Wide Web have brought major benefits in social and economic development worldwide. Both have been built and governed in the public interest through unique mechanisms for global multistakeholder internet cooperation, which have been intrinsic to their success. The leaders discussed the clear need to continually strengthen and evolve these mechanisms, in truly substantial ways, to be able to address emerging issues faced by stakeholders in the internet.

**/1net**  
 /1net is an open and global multistakeholder Internet movement who seeks to safeguard the public trust of the Internet. It was created following the spirit of the Montevideo Statment on the Future of Internet Cooperation. More information on how to participate here: <http://1net.org>
