ICANN79 Production Planning Call No. 1
Wednesday, 06 December 2023 at 16:00 UTC
Chat

00:20:30   Jonathan Zuck: Easier to make faces when behind…

00:21:21   Karen Day: second the request for more tables.

00:21:44   Mary Wong - ICANN Org: Thanks for the feedback, Ashley! On the tables - we can certainly see what we can do; the one caveat we'll add here is that adding tables likely means we need to reduce the number of seats in that room.

00:22:15   Ken Renard: +1 on the longer session options

00:22:27   Philippe Fouquart: Mason+1 the Tuesday was also extremely well organised for the ISPCP, and our outreach back to back after our constituency session

00:22:29   Susan Payne (IPC):   hear hear Ashley for some means of being able to use your laptop. Conference room seating is also too tall for many of us so even harder to balance laptops on laps (seats are designed for me not women)

00:22:41   Susan Payne (IPC):   men

00:23:09   Susie Johnson - ICANN Org: Welcome, Ram!

00:23:18   Susie Johnson - ICANN Org: And Tara

00:23:37   Tara Whalen: Hello and thanks for the warm welcome!

00:24:18   Susie Johnson - ICANN Org: Hello Nico and Nigel

00:24:42   Nico Caballero: Hi Susie, hello everyone!

00:26:07   Seb Bachollet: +1 @Jonathan Zuck

Yes for plenaries

00:27:06   Julf Helsingius:And I would have a proposal for a plenary session on internet fragmentation (especially in the WSIS+20 context)

00:29:08   Ken Renard: Reacted to "And I would have a..." with 👍

00:29:23   Susie Johnson - ICANN Org: Welcome Barry.

00:31:27   Benjamin Akinmoyeje: Congratulations for the success of ICANN78. We appreciate the support we got our special sessions at Hamburg.👍

00:31:47   Benjamin Akinmoyeje: *for

00:32:55   Nigel Hickson UK GAC: Should have thanked our mavelous hosts in Hamburg

00:33:27   david.olive: Thanks for your comments on ICANN78 and ideas for ICANN79

00:37:48   Hervé CLEMENT (ASO AC):   For the ICANN Board and ASO (Wednesday, 16:30) what is "GAC communique" ?

00:39:00   Julf Helsingius:I assume those are two separate, parallel things

00:39:08   Nathalie Peregrine - ICANN Org: @Hervé CLEMENT (ASO AC) these are two separate sessions, the GAC Communiqué session being a follow up from the two previous GAC Communiqué drafting sessions. The fact they are the same colour is misleading, but they are two distinct sessions.

00:39:34   Hervé CLEMENT (ASO AC):   Replying to "For the ICANN Board ..."

thanks Julf

00:39:40   Julf Helsingius:add 👍

00:39:53   david.olive: Thanks Natalie and Herve for the question

00:40:06   Hervé CLEMENT (ASO AC):   Reacted to "@Hervé CLEMENT (ASO ..." with 👍

00:40:12   Hervé CLEMENT (ASO AC):   Reacted to "Thanks Natalie and H..." with 👍

00:45:10   Jonathan Zuck: Makes sense on the award

00:47:08   Nico Caballero: +1 UK

00:51:25   Susan Payne (IPC):   I think plenaries serve a purpose, but only when there is a pressing topic which requires that. We has reached a stage where we were talking about multiple plenaries and seemed to be scheduling topics to fill the slots rather than finding the slots IF there is a need

00:52:03   Nico Caballero: +1 Susan

00:52:14   Ashley Heineman: +1 Susan

00:55:52   Ted Bartles - ICANN Org: Yes there will be places for lunch and also some very close by

00:56:01   Susan Payne (IPC):   David/Mary, what is EMS?

00:56:15   Susan Payne (IPC):   24 Jan deadline

00:56:23   Juan Manuel Rojas: Is there exists any chance to have a Signup rooms for ECs can work previous or even make some arrangements before formal meetings?

00:56:23   Ted Bartles - ICANN Org: That is our scheduling software

00:56:24   Carlos Reyes - ICANN Org: EMS is the Event Management System that staff uses to submit session requests

00:56:25   Nathalie Peregrine - ICANN Org: @Susan Payne (IPC) EMS is the tool used to enter the meeting requests to create the draft schedule.

00:56:31   Jonathan Zuck: We could use some better weather…

00:56:37   Mary Wong - ICANN Org: Oh sorry, Susan - I believe that refers to the Event Management System that our staff uses to request and schedule sessions.

00:56:38   Susan Payne (IPC):   thanks!

00:56:44   Carlos Reyes - ICANN Org: Reacted to "thanks!" with 👍

00:56:48   Benjamin Akinmoyeje: Awesome, restaurant options around the venue is a big win👍

00:57:05   Susan Payne (IPC):   Reacted to "EMS is the Event Man..." with 👍

00:57:25   Amrita Choudhury: Reacted to "Awesome, restaurant ..." with 👍

00:57:46   Amrita Choudhury: Thanks a lot David and everyone

00:57:50   Mason Cole: Thanks David!!

00:57:55   Heidi Ullrich, ICANN org: Thanks, All.

00:57:55   Terri Agnew - ICANN Org: Thanks all for joining!

00:57:55   Susan Payne (IPC):   thanks all

00:57:56   Nigel Hickson UK GAC: Thank you

00:57:58   Philippe Fouquart: Thanks David, everyone

00:57:58   Juan Manuel Rojas: Thanks

00:57:58   Julf Helsingius:Thank you everyone

00:57:59   Mary Wong - ICANN Org: Thank you everyone!
