

Model email on the Acronym Helper Wiki

Dear [NA/LAC/AP/AF/EU]RALO members,

We are writing to you as members of the ATLAS II Mentoring Program to inform you some advance and ask your collaboration.

We have created an Acronyms Helper Wiki and you can find this tool in the following link:

<https://community.icann.org/display/atlarge/Acronym+Helper>

It was filled in by taking the list of acronyms of Beginner's Guide.

This Wiki can be edited by all ALS members. You only need a username and password to access the Wiki. If you do not have already this username and password please put in touch with ICANN's technical services to assist you (community-help@icann.org). If you find some difficulty in the process please ask collaboration to the At Large Staff (staff@atlarge.icann.org).

You are invited to complete this dynamic list of acronyms and take a look before the ATLAS II meeting.

We hope you can find this tool useful.

Thank you.

Best Regards,

[Name]
