

GNSO Review Working Party – Chat – 4 September 2014

Nathalie Peregrine: Dear all, welcome to the GNSO Review Working Party call on the 4th September 2014

Larisa Gurnick: Please note that the Assessment has been officially extended to 23 September - <https://www.icann.org/news/announcement-2-2014-09-03-en>

Osvaldo Novoa: Hello all, sorry I am late.

Marika Konings: Would it be an option to start of with a general part of the survey talking about WGs in general and then allow those that want to, to go into detail about specific WGs?

Marika Konings: I'm still here

Marika Konings: :-)

Ron A: Thanks for those comments Marika.

Mary Wong: @Ron, to add to Marika's comments, we did note the existence of the WG Self Assessment Tool but as only one completed WG has filled it in, we weren't sure how helpful those responses would be. Agreed, though, that the questions themselves may be helpful to Westlake and we have started trying to get a good clean copy of them.

Ron A: @ Mary: Thanks. I agree that the quesitons could be of assistance to Westlake.

Larisa Gurnick: Westlake also plans to meet with the GNSO Review Working Party, which includes 20 people.

Larisa Gurnick: Thanks Marika, we are following up on the timing on Sunday

Philip Sheppard: thanks all bye
