**Notes:**

- Westlake team was provided with the transcript, recording and comments from the 4 May 2015 call.
- Updates are being scheduled with the constituency groups and Westlake in Buenos Aires.
- Westlake made substantial changes to the Draft Report compared to the original working text which incorporated feedback from the Review Team.
- Westlake has started a feedback table to ensure each comment has been considered and will add comments received on the Draft Report from the Working Party, indicating how these comments were resolved.
- No concerns were raised by the Working Party if the Draft Report is posted for Public Comment by 1 June. The Public Comment period ends on 20 July.
- Staff to develop a matrix of draft recommendations and flag alignment with work already underway toward implementation of recommended improvements. It would be helpful to have his available in time for Buenos Aires.
- Last day to provide comments to the Draft Report is today (12 May).

- Schedule a morning working session in Buenos Aires – and flag Monday, Wednesday and Thursday morning (7:30 start) as possibilities in doodle poll. Staff will launch a doodle poll as we get closer to the meeting.
