

GNSO Review Working Party Session
ICANN52 – Singapore
11 February 2015 – 10:30-Noon SGT

Chat Transcript

Charla Shambley: Hello, my name is Charla Shambley and I will be monitoring this chat room. In this role, I am the voice for the remote participants, ensuring that they are heard equally with those who are “in-room” participants. Please note that I will only be able to read your comment/question within the time set by the Chair of this session; I will not be able to read your comment or question on the mic if they are sent after the session/subject is closed by the Chair.

Charla Shambley: The chat rooms are the virtual meetings’ for everyone, in-room and remote. When submitting a question that you want me to read out loud on the mic, please start with a <QUESTION> and end with a “</QUESTION>”. Text outside these quotes will be considered as part of “chat” and will not be read out loud on the mic.

Charla Shambley: Please note that chat sessions are being archived and follow the ICANN Expected Standards of Behavior: <http://www.icann.org/en/news/in-focus/accountability/expected-standards>.

Bill Drake: It is very unfortunate that our human rights meeting is scheduled at the same time, but I will try to follow the slides and read the report after

Larisa Gurnick:@Bill - please note that this session is being recorded and transcribed and there will be another working session on 3 March. Staff will provide an update email with all relevant information and links.

Bill Drake: great thanks Larisa

Mary Wong:@Bill, Rudi is here as one of the NCSG Working Party members. There are other WP members from other SGs as well who are present.

Bill Drake: I strongly disagree with the recommendation on Council being limited to rubber stamping WGs. That is a killer for civil society.

Bill Drake: Also don't agree we need more silos

Bill Drake: this slide puzzling

Mary Wong:@Bill, this is a very brief summary - the Working Party and community will have a chance to review the analysis in fuller detail after this meeting.

Bill Drake: good thing

Edmon: This chart is good way to understand the dynamics

Edmon: i meant the pie chart that grouped us/eu/anz

rafik: any link to the slides?

Mary Wong: @Rafik, I expect that they will be published for the ICANN meeting session, like other ICANN meeting sessions, and possibly also to the Working Party wiki.

Richard Westlake: Agreed - thank you for that feedback to Colin

Charla Shambley:@Rafik - they slides will be posted to the session details page this afternoon.

<http://singapore52.icann.org/en/schedule/wed-gnso-review>

rafik: @charla material are supposed to be available 2 weeks before me, for icann to respect its own guidelines

Mary Wong: @Rafik, that is for materials to be discussed during the ICANN meeting. This is one reason why this session was structured as a presentation - so the actual recommendations will be published after the meeting, in recognition of the fact that the community will need time to digest and review them.

Charla Shambley: Thank you for attending today's working session.
