**Name:** Daniel Karrenberg

**Motivation:**

I am willing to work on documents related to root name server operations and operational requirements as well as anything related to statistics, measurements and performance. My personal goals for RSSAC work products are high quality, furthering operational stability and maintaining diversity in both operations and governance.

**About me:**

https://www.linkedin.com/pub/daniel-karrenberg/36/261/742

**Indication of availability, not a formal commitment:**

I can work on RSSAC documents for about 7 hours per month in addition to the time I spend for formal RSSAC business. I schedule work with about 6 weeks planning horizon.

**Relevant Qualifications:**

- DNS operator since the 1980s.
- Responsible for operation of k.root-servers.net 1997-2000 and 2010-1013.
- Advisor on operation of k.root-servers.net 1997-present.
- Instigated and contributed to initial design of NSD name server.
- Designer and principal implementor of dnsmon.
- Co-author of RFC2870: "Root Name Server Operational Requirements"
- Governance experience at board and executive levels.
- Participant in RSSAC from its inception.

**Formal roles and interests in the work area of RSSAC:**

- Employed by RIPE NCC, the k.root-servers.net operator.
- Member of RSSAC.
