

## Statement of Interest for the RSSAC Caucus

**Name:** Adiel A. Akplogan

**Affiliation/Current Position:** Vice President, Technical Engagement at ICANN

**Relevant Qualifications:** Formerly CEO at AFRINIC, and before that has been very involved in DNS service deployment for many companies (including for ccTLD managers). Not much in root server management.

**Motivation:**

1. Evolution of Root Server System Operations' evolution while maintaining its overall security and stability.
2. More deployment of anycast instances globally and more particularly in developing regions.
3. Evolution of the (RSSAC) root server operators' structure, organization along with a better awareness of its work within the technical community globally and beyond (a bit more transparency).

**Availability:** As and where needed.

**Formal Roles and Interests in the Work of RSSAC:** Any
