

STATEMENT OF INTEREST

Name: John Heidemann

Affiliation: USC/ISI

Position: Project Leader

Qualifications:

- Researcher staff (USC/ISI) and research professor (USC/Computer Science Dept.) with experience in Internet research;
- Member of B-root operations;
- Active in DNS-related activities at IETF (currently DPRIVE)

Motivation: To get a better understanding of the broader DNS community and evolution of the Internet naming infrastructure and protocol ecosystem.

Availability: Varies considerably over the year; can be tens of hours per week for focused, short-term efforts

Roles and interests: I am interested in DNS research, particularly engaging the academic community; protocol evolution and design, particularly privacy; and operations, particularly planning, evolution and security.
