

**Name**

Kazunori Fujiwara

**Affiliation and Current Position**

Japan Registry Services Co., Ltd (JPRS), (Senior) Researcher

**Relevant Qualifications**

- Co-author of RFC 7719 “DNS Terminology”.
- Co-author of RFC 8198 “Aggressive Use of DNSSEC-Validated Cache” that reduces queries to root servers.
- Received Ph.D degree from University of Tsukuba (2015) about DNS traffic analysis and reduction of DNS load.
- Analyzing root DITL dataset for several years.
- Planed and evaluated DNSSEC implementation in JP.

**Motivation**

My motivation is to make Internet/DNS stable. I would like to know current status of DNS (includes root) and improve DNS protocols/implementations/configurations.

**Indication of Availability**

I can work for DNS research most of time. I attend IETF meetings (and DNS-OARC meetings).

**Formal Roles**

N/A
