

Statement of Interest for RSSAC Caucus

Name: Mallory Knodel

Affiliation and Current Position: Head of Digital, Article 19; IETF, Human Rights Protocol Considerations Research Group co-chair

Motivation: Making DNS more transparent and stable are crucial to my work. I am passionate about cybersecurity policy advocacy and its effect on free speech and human rights.

I would like to attend RSSAC meetings that happen at IETF and ICANN meetings, because I am active in those fora, in particular the IETF 103 meeting in Bangkok on 6 November 2018. For interim RSSAC Caucus meetings, I am available to attend or dial. I would like to participate in a working group.

Relevant Qualifications:

- eQualit.ie Executive Board, director
- Internet Governance Forum Best Practice Forum on Cybersecurity, member
- Internet Society Kenya, member
- Free Software Foundation, member
- May First/People Link, member
- Association for Progressive Communications, member
- World Social Forum International Council, member
