Statement of Interest for RSSAC Caucus

Name: Tomofumi Okubo

Affiliation: Internet Corporation for Assigned Names and Numbers (ICANN)

Current position: Identifier System Analytics Manager

Relevant qualifications: Managed Root DNSSEC KSK operations 2011-2014. Participated in the Root DNSSEC Design team back in 2009.

Motivation: I believe improving the operational transparency of the Root Server System through formalizing and documenting the operational practices will greatly enhance the security, stability and resiliency of the Internet. I would like to help author and review documents related to the Root Server System as a security practitioner.

Indication of availability: I will be able to work on RSSAC documentation 5 - 10 hours per month. In addition, I will be able to participate in meetings either in-person or remotely.

Formal roles and interests in the work of RSSAC: Employed by ICANN working on identifier SSR analytics.
