RSSAC Caucus Membership Application
Statement of Interest (SOI) Form

- **Name**: Moritz Müller Brus

- **Affiliation and current position**: Research Engineer at Stichting Internet Domeinregistratie Nederland (SIDN); Guest Researcher at the University of Twente in the Design and Analysis of Communication Systems (DACS) research group.

- **Relevant qualifications**: Eight years of experience as a researcher on DNS and DNSSEC in the research team of the registry of the Dutch ccTLD (.nl). Awarded a PhD from the University of Twente by defending the thesis on DNSSEC algorithm transition in 2021 [1]. Since 2022, co-chair of the DNS working group at RIPE. Member of the Design Team to Evolve Root Zone Security [2]. Part of the consortium that carried out the RSSAC028 Implementation study, commissioned by ICANN.

- **Motivation for membership in the RSSAC Caucus**: As an observer of the DNS in general and the root server system in particular I would like to also get the opportunity to actively help improving and evolving the RSS were possible.

- **Indication of availability**: 1 day per month.

- **Formal roles (if any) and interests in the work of RSSAC**: -

- **Links where appropriate**:
