

Name

Yoshitaka Aharen

Affiliation and Current Position

Japan Registry Services Co., Ltd. (Japan)

Systems Department

Relevant Qualifications

- * M-Root DNS operator since 2013
- * ccTLD (.jp) DNS operator since 2010
- * gTLD (.jprs) DNS operator since 2015
- * former project member of BIND 10 (currently known as Bundy) as a developer

Motivation

From my experience through DNS operation and the implementation of RSSAC002 metric reports in M-Root, I would like to participate in discussions for reviewing documents related to especially, but not limited to, the measurement and the stability of Root DNS server system from operational perspective.

Indication of Availability

I will be able to work on RSSAC documentation for about 5 hours per month. Also, I will be able to participate in meetings in person or remotely.

Formal Roles

- * M-Root DNS operator
