

Statement of Interest for RSSAC Caucus

Name:

Colin Petrie

Affiliation and Current Position:

RIPE NCC, Senior Systems Engineer

Motivation:

Driven to ensure the stability and reliability of operations for the root zone, for the good of the internet community in general, and also the practical implications of any changes which may operationally affect my current position as an operator of one of the root name servers. I am happy to assist the RSSAC caucus in all work relating to the root name server system.

Relevant qualifications

Operator of K-Root

Previously, DNS and Network Engineer for various hosting ISPs and domain registration organisations for approx 10 years

Honours degree in Electronic Engineering

Formal roles and interests in the work of RSSAC:

Employed by RIPE NCC, the K-Root operator

Contributor to RSSAC002

Indication of availability

I would be regularly available to contribute 1-2 hours per week towards RSSAC work. In addition, while attendance is spread across our team, when possible I can also attend the RSSAC meetings when co-located with IETF, DNS-OARC or RIPE meetings
