

RSSAC Caucus Statement of Interest

Name: Yuji Sekiya

Motivation:

I would like to contribute rssac-caucus for measurement and operation of Root DNS servers. My goal is contributing the stable and global operation of Root DNS servers, so I want to make discussions with other members especially regarding operational issues.

Affiliation and current position:

Associate Professor in The University of Tokyo and WIDE Project member.

Relevant qualifications:

- DNS operator more than 10 years.
- M Root DNS operation since 2000.
- JP DNS operation since 2000.

Indication of availability:

Available for all caucus meetings and about 4 hours/month for measurement and documentation for rssac-caucas.

Formal roles and interests in the work of RSSAC:

A member of WIDE Project and responsible for M Root DNS operation.
