steve metalitz:GDPR was adopted May 2016 with effective date May 2018

frederic guillemaut:the work is on the RRA to do, with the registrars and Verisign.And yes, we as registrars have to find a solution.

Marika Konings:The GNSO Council noted during its recent meeting that the discussion on a possible update of the legal review has moved on through discussions between the CPH and ICANN as well as legal input that is being sought by the RDS PDP WG, so no further action is expected at this stage at a Council level.

Marika Konings:although of course any Council member can bring the issue back to the table.
