ICANN at-Large
What’s Our Challenge

“…Sheer volume of materials. Immense. Overwhelming…”

“…Difficult to understand what it is. Not intuitive…”

a website is a tool, not a solution...

- Repetitive content
- Unclear structure
- Poor search capability
- Barrier to outsiders
- Poor aesthetics
- Lack of translation
- Lack of accessibility
- Outdated content

Background
At-Large position on the proposal amendments to the Registry Agreements of several registry operators. The proposed Amendments are to implement a new registry service, submitted through the Registry Services Evaluation Process (RSEP), that would permit the introduction of two-character domain names for registration in the new gTLD namespace.

### Background

At-Large position on the proposed amendments to the Registry Agreements of several registry operators. The proposed Amendments are to implement a new registry service, submitted through the Registry Services Evaluation Process (RSEP), that would permit the introduction of two-character domain names for registration in the new gTLD namespace.
