

Maryam Bakoshi:Dear All, welcome to the Monthly NCSG Open Policy meeting of Tuesday 21st July, 2015 at 15:00 UTC

Amr Elsadr:What is going on today?!

Amr Elsadr:No audio in this AC room?

Rudi Vansnick:this is useless

Carlos Raul:hi?

Rudi Vansnick:i canceled my presence at the Belgian National Day today for this specific call ...

Carlos Raul:i know Ruffdi

Carlos Raul:is terrible

Carlos Raul:im in the bridge ith rafik

Carlos Raul: but no audio here

Amr Elsadr:Dialling in now.

Farzaneh Badii:what is going on ...

James Gannon:Hey everyone, unfortunately we seem to be having technical issues that are outside of the control of staff and the chair.

Maryam Bakoshi:I am sorry everyone

Maryam Bakoshi:We are working hard with the providers to sort this out

Sam Lanfranco:getting some sound but it looks like connect discussions

Amr Elsadr:Can people please mute mics? Thanks.

Stephanie Perrin:now you are mute. Get the echo back

Rudi Vansnick:this seems to be a joke now

Maryam Bakoshi:Its working now

Rudi Vansnick:Maryam : please talk to the operator

Jeremy Malcolm:I'm leaving the call, this isn't working

Sam Lanfranco:@Question I am working with BC people on the registration policies for GAC Category 1 High Regulated Applications. Is there anything more NCSG has to say on that issue.

Maryam Bakoshi:@Rudi: Yes I am

Stephanie Perrin:who is the operator talking to....and why is this going on on the open channel?

Robin Gross:Probably the best thing ICANN could do to support civil society participation is to have WORKING monthly policy calls.

James Gannon:We keep dropping the bridge

Sam Lanfranco:@Stephanie What is it about the wonders of modern technology that you don't understand?

rafik:@everyone I will follow-up with this issue, please focus for now to use whatever remains in this call to cover as much as possible of items

Robin Gross:thanks, Rafik, I know how frustrating it is.

Edward Morris:@ Rafik. I feel for you. Good luck.

Stephanie Perrin:agree with AMr, it is a good report.  
James Gannon:Good point Amr, we can do that  
Stephanie Perrin:Happy to do that! We need reinforcements on this process, it will be exhausting  
Stephanie Perrin:Good approach Avri , the rights impact analysis  
Edward Morris:Could staff please call back Stefania Milan? She was disconnected after 3 minutes, is only on the bridge because her AC crashed and is now on nothing. THanks.  
Maryam Bakoshi:Dialled out to Stefania  
Amr Elsadr:Loud and clear Robin.  
Edward Morris:Thanks Maryam  
Edward Morris:And Paul Rosenweig  
Matthew Shears:please out of courtesy must your mic  
James Gannon:Please mute your mics if your on the bridge please  
Bill Drake:cross talk is serious  
Stephanie Perrin:please mute the line of the person talking  
Amr Elsadr:@Robin: I hear that too.  
James Gannon:Its on the bridge  
Maryam Bakoshi:Noise coming from a participant  
Maryam Bakoshi:OK  
Maryam Bakoshi:Done  
Bill Drake:sooo glad we got you on their, Robin :-)  
Bill Drake:there  
Amr Elsadr:I don't see HRs making it in, but would be great if it did. :)  
Stephanie Perrin:Support from others in europe like Hutty, right??  
Amr Elsadr:There was a David something on the WP2 call today who seemed eager to include HRs.  
James Gannon:McAuley?  
Stephanie Perrin:All of this has relevance to the work we are doing in PPSAI...we cannot let that process get inked in defiance of progress on the accountability measure side  
Amr Elsadr:Yeah. I think that was him. I kind of crashed that call. :)  
Bill Drake:very much would love a webinar on the Single Member vs alternatives and the various layers of the problems and debates  
Farzaneh Badii:Me too Bill  
Amr Elsadr:Much better Ed.  
Stephanie Perrin:better  
Bill Drake:Ed you on a speaker phone?  
Joao Carlos Caribe:+1 Bill  
Stephanie Perrin:+1 Bill  
Stephanie Perrin:Was that tomorrow Ed?

Amr Elsadr:Thanks Ed and Robin.  
Bill Drake:I would hope we never go to court...  
James Gannon:Yup Robin covered all of the critical points  
rafik:Bill yes Iam planning a webinar, need to find appropriate  
time  
James Gannon:+100 Bill  
James Gannon:With a strong IRP we will be in a much better  
place to enforce accountability  
Amr Elsadr:So if I get what Ed said, anyone can launch an IRP  
(doesn't have to be a member), but the ability to enforce IRP  
rulings via courts can only be done by members?  
Bill Drake:hee hee  
Bill Drake:human rights is all just a devilish plan to hurt  
trademarks  
James Gannon:@Amr in broad strokes yes  
Amr Elsadr:OK. Thnx.  
Stephanie Perrin:Klaus?  
Stephanie Perrin:yes  
Amr Elsadr:I can hear you Klaus.  
Robin Gross:I can hear Klaus  
Rudi Vansnick:i also thought it was an informal meeting not the  
start of the drafting team  
Stephanie Perrin:Are we going to go overtime for this  
meeting? we hae not got to the elections, which is a rather  
importnat issue.  
rafik:@stephanie iy is just reminder about check-in, nothing  
else  
Edward Morris:I agree with Amr. I regret supporting the CCWG as  
well.  
James Gannon:Corect Amr  
Stephanie Perrin:Ok fine  
Stephanie Perrin:What about planning for ICANN 54?  
Amr Elsadr:Anyone else had trouble hearing me?  
James Gannon:Fine my end  
Bill Drake:you do not hear me  
Bill Drake:sorry forget it  
Matthew Shears:Bill from the space station  
Amr Elsadr:Sounds like someone just shoved a mic in a jet  
engine!!  
Bill Drake:I am in space  
Bill Drake:what I was going to say is are we engaging with CSG  
on this?  
Bill Drake:I still think Tony would be good  
Amr Elsadr:I thought sound can't travel through space?  
Amr Elsadr:;-)  
Bill Drake:I space nobody can hear you complain

Stephanie Perrin:cannot hear anything

Bill Drake:it is really hard to do things on the Friday before, people have to fly in early and get hotel covered.

Bill Drake:human rights, privacy etc. better within the week program like in BA

Robin Gross:I think there will be a CCWG Accountability mtg on the Friday before.

James Gannon:PPSAI is having a F"F before aswell

Bill Drake:wish you could clarify that Robin...we could reallocate your travel

Robin Gross:No doubt CWG Stewardship will met too.

Stephanie Perrin:Yes I know we still have time, as long as we start working on it right away

Amr Elsadr:From what I could tell..., the PPSAI F2F isn't confirmed yet.

Stephanie Perrin:NO there was discussion of an outreach on privacy meeitng

Bill Drake:it is hard to organize meetings competing with CCWG and IGC

Robin Gross:Wish I could too, Bill. I need clarification from ICANN as to whether we will be supported. I'll ask \*again\* but cannot force them to decide.

Stephanie Perrin:Me too I forgot that issue Amr, thanks!

Robin Gross:who is screaming? it is the theme of this mtg. ;-)

Bill Drake:I wish I could speak....

Amr Elsadr:@Ed: Valid concern. Not the first time policy staff request an extension for issue report drafting.

Bill Drake:Wish I'd not had another call for the first hour, sounds like I missed high drama with technical problems

Bill Drake:bye bye

James Gannon:thanks all

Stephanie Perrin:Thanks everyone!!

Robin Gross:Thanks, Rafik!

Amr Elsadr:Thanks all. Bye.

Matthew Shears:bye

Patrick Lenihan:Thanks, All!

Rudi Vansnick:bye

Edward Morris:Thanks Rafik.

Robin Gross:Bye, all!

Farzaneh Badii:bye all

Maryam Bakoshi:Bye all
