

**Zoom Chat Transcript**  
**NCSG Policy Call – 16 November 2020**

00:22:10 Raymond Mamattah: Hi Tatian, was it during the Freedom Online conference in February?

00:22:31 Tatiana Tropina: Raymond, yes, FOC meeting!

00:22:51 Raymond Mamattah: I was there as well

00:23:05 Tatiana Tropina: :) great!!! What a lovely time it was!

00:24:40 stephanieeperrin: Apologies for late arrival

00:25:36 Brenda Brewer: Tomslin, we cannot hear you.

00:33:30 Olivier KOUAMI: Hi everybody

00:35:47 Raoul Plommer: Hi there, sorry I'm late.

00:40:25 stephanieeperrin: I can volunteer for the design phase comment

00:40:32 stephanieeperrin: I have reviewed the doc

00:40:59 stephanieeperrin: So could you post the link to it here please and I will pop in and put some stuff in there

00:41:27 stephanieeperrin: Thanks!!

00:41:30 Tomslin Samme-Nlar: <https://docs.google.com/document/d/1GJ-MmhxL2EkPuigXpKXWJ302WMEbc-cgai4dPszS-JI/edit>

01:06:58 stephanieeperrin: Could we have a little webinar with our reps on the AtRT on issues raised in that review?

01:07:08 stephanieeperrin: Ad I agree, delay if we can

01:07:49 Raphael Beauregard-Lacroix: Same Q as Tomslin actually

01:07:49 stephanieeperrin: They want to take our seats away....

01:07:55 stephanieeperrin: (Joke)

01:08:03 stephanieeperrin: But not really

01:08:07 Raphael Beauregard-Lacroix: But Steph that's not a rationale haha

01:08:35 stephanieeperrin: That is the real reason, not the stated rationale, true!

01:08:52 Raphael Beauregard-Lacroix: Oh, yes sorry Tomslin. My Q is actually what's their rationale to bypass the atrt3 rec/request

01:10:19 stephanieeperrin: It is not in our interest to fight that battle right now, we need more participation and the folks who have been fighting on EPDP need some time to recuperate

01:10:38 Tomslin Samme-Nlar: No worries Raphael. I guess I made the comment with the hope of learning what their rationale is during the council meeting. That's why I said it was a comment

01:10:49 stephanieeperrin: (And I believe I am speaking for others, not just my tired old self)

01:11:30 Raphael Beauregard-Lacroix: @Tomslin yes! I'm quite curious too

01:11:54 stephanieeperrin: In the meantime, and I realize I am sounding like a broken record, but folks should review the previous GNSO review

01:12:05 stephanieeperrin: And the one before it and the one before it

01:12:33 Tomslin Samme-Nlar: I agree @Stephanie. It is a necessary research material for this topic

01:12:34 Rafik Dammak: stephanie there were only 2 gnsso review :)

01:13:23 Tomslin Samme-Nlar: Noted Bruna

01:13:30 stephanieeperrin: What about the LSE report? It bore a different name but was the same process and rationale for analysis. In my view, a better perspective

01:13:53 stephanieeperrin: Quite early, forget the precise year

01:13:58 Rafik Dammak: it was part of 1st gnsso review

01:14:09 Rafik Dammak: around2009

01:14:13 Rafik Dammak: 2008

01:14:29 stephanieeperrin: But not part of the independent contractor's work

01:14:49 stephanieeperrin: I will look it up and send the link, hopefully it is still up there

01:15:18 Bruna Martins dos Santos: About review: just adding that I think we need to reply formally to Marteens letter, formalizing our concerns.

01:15:28 Rafik Dammak: <https://www.icann.org/news/announcement-2006-09-15-en>

01:15:41 Bruna Martins dos Santos: and I can ask our ATRT3 reps for another briefing

01:16:22 stephanieeperrin: I thought it was earlier.

01:16:38 stephanieeperrin: Indeed, 2006, which was early days for us

01:16:50 stephanieeperrin: Well worth a read IMHO

01:16:58 Rafik Dammak: vote for the motion

01:17:30 Tomslin Samme-Nlar: I think the motion makes sense to vote for

01:18:33 Rafik Dammak: link to space for gnso review  
<https://gnso.icann.org/en/group-activities/other/review>

01:22:31 stephanieeperrin: We also have Olga as EPDP liaison

01:22:50 stephanieeperrin: For new members, Olga was a GAC member

01:23:03 Olivier KOUAMI: Thank you all for your kind spirit of sharing. Really, it's a long story to learn about. Courage ! ;-)

01:23:06 stephanieeperrin: She is a new noncom appointee to Council

01:23:29 Rafik Dammak: thanks Tatiana

01:29:22 stephanieeperrin: I hope we are ready

01:30:36 stephanieeperrin: I am trying to maintain a low profile on the Council, so I don't want to have to "go on a tear" as they say in the Ottawa valley, during my first formal meeting back on Council

01:37:53 Bruna Martins dos Santos: apologies for having my mic open and also pressing the "go faster" button! it was not aimed at you, Tanya

01:38:59 Tatiana Tropina: Haha Bruna — I thought go faster was about adopting the motion :-)

01:39:53 Raphael Beauregard-Lacroix: I

01:40:08 Bruna Martins dos Santos: hahaha, sorry.

01:40:27 Raphael Beauregard-Lacroix: Sorry - I, along with possibly Sam and someone else, will be on the gnso scbo

01:40:29 Pedro de Perdigão Lana: I will check these open calls without volunteers and see which one(s) I can help - I just think I'll not be able to do it without help, since it would be my first one (:

01:40:58 Raphael Beauregard-Lacroix: So we'll be involved with the NCSG comment too I guess ^^ anyway you can definitely add me for the budget comment

01:42:21 stephanieeperrin: Is anyone following the budget these days? I ant to know what they are doing with all the travel money and public meeting expenditures

01:42:24 Bruna Martins dos Santos: thanks everyone for attending the call

01:44:09 Sam Lanfranco: Thanks

01:44:14 Stephen Dakyi: Thanks Everyone, Bye from Ghana School of Internet Governance
