01:16:01 Rafik Dammak: hello again

01:17:38 Maryam Bakoshi - ICANN Org: Welcome back, Rafik.

01:23:14 stephanieeperrin: Yes that is my problem, A tad burnt out....

01:28:59 Raphael Beauregard-Lacroix: hi all, I must unfortunately leave the meeting. Have a nice day and see you around!

01:29:20 Tomslin Samme-Nlar: Thanks for coming Raphael

01:31:13 Maryam Bakoshi - ICANN Org: Thanks Raphael

01:33:04 Rafik Dammak: @tatiana is accuracy one of the topic for discussion between gac-council?

01:33:56 Tomslin Samme-Nlar: yes, it was

01:34:03 Tomslin Samme-Nlar: @Rafik

01:35:11 stephanieeperrin: Yes sorry I slept through my alarm at 3 am and missed that Council GAC meeting (blush)

01:37:22 Rafik Dammak: I missed it as it was during working hours :/

01:47:22 Rafik Dammak: super old hand

01:47:56 stephanieeperrin: We need a job description for the function

01:48:45 Juan Manuel Rojas: Agree Steph..I think we need to clarify that

01:50:07 Manju Chen: A beginner question: why is GAC not sending a liaison to GNSO? why does GNSO have to send one? ALAC and ccNSO send their liaison to GNSO, why can't GAC do the same?

01:51:41 stephanieeperrin: They did not want to at the beginning, too much work. They have had [perceived] resourcing problems, over the years, they have wanted payment to run a secretariat to support them for instance.

01:51:47 Manju Chen: wouldn't Jorge's 'job description' overlaps with Jeff in a way?

01:52:27 Marika Konings - ICANN org: @Manju - if I may, as the staff member who supported the GAC-GNSO Consultation Group who developed the recommendation for the GNSO Liaison to the GAC, the GAC does not appoint liaisons because no one can speak for the GAC, only the GAC Chair can do so. There seemed to be concern that if the GAC would appoint a liaison it could be seen by some as that person speaking for the GAC.

01:52:58 Manju Chen: thanks Marika! very helpful!

01:53:15 Rafik Dammak: thanks Marika, it is always a big problem for GAC. having GAC rep to EPDP is really something new

01:53:19 Manju Chen: and also Tatiana your explanation was excellent too, thanks!

01:53:29 Marika Konings - ICANN org: Of course, it is possible that this thinking may have evolved since, but that was at the time the reason for not appointing a liaison (as the GNSO at the time did ask if they were interested in doing so).

01:53:37 stephanieeperrin: Thanks for that nuance Marika, I had forgotten than aspect of the matter....very true, there is the issue of the independence of the GAC.

01:53:47 Marika Konings - ICANN org: And yes, Tatiana, just adding to your explanation which was spot on :-)

01:57:17 Rafik Dammak: thanks Tatiana

02:02:20 Taiwo Peter Akinremi: Thanks Tomslin for the update on Transfer policy PDP. However, I'm curious if NSCG have any position that can be helpful especially on the operations of auth-code

02:03:44 Taiwo Peter Akinremi: Maybe Rafik, Kathy, Stephanie, and Tatiana can be of help :)

02:07:00 Rafik Dammak: transfer policy work was years ago, we will need to make position based on current context i.e EPDP. EPDP rep likely have better idea

02:08:26 Taiwo Peter Akinremi: Thanks Rafik

02:08:47 Taiwo Peter Akinremi: Good comments Stephanie

02:11:38 stephanieeperrin: I will get the name of Kathy's book on the ENIAC pioneering women and put it on the list. Congrats are in order, it is a great initiative.
