

Maryam Bakoshi: Dear All, welcome to the NCSG Monthly Policy Call on Tuesday 10 october 2017 at 1200 UTC for 120minutes

Martin Silva Valent: Hi

Maryam Bakoshi: Welcome all!

Maryam Bakoshi: Please may I ask that you mute your mic if you are not speaking. Thank you.

Bruna Santos: Hello, good morning everyone!

Poncelet Ileleji: Hello all

Tapani Tarvainen: Hi all. Unfortunately I'll have to leave in an hour or so.

zina BRAHIM MAHAMAT: Hello All

Rafik: hi everyone, we will start the call in 2 minutes

Ayden Férdeline: hi all

Arsene Tungali: hi all, glad to have everyone

Juan Manuel Rojas: Good morning everyone

Kathy: Hi All!

Kathy: Like Tapani, I have to leave in an hour

Kathy: Tx Rafik!

Nick Shorey: hi team, apologies for tardiness

Jahangir Hossain: Hi Everyone , Glad to have everyone ...

Ayden Férdeline: this is a good comment for newcomers. the budget is only \$10.4m, so not too overwhelming to explore. i am happy to discuss offline tactics on how to review the source documents if anyone would like to work on this comment.

Arsene Tungali: rafik, can u maybe give more details about what should our comment focus on? what things do the volunteers need to track for ncsG comments?

Rafik: @Ayden just 10M :)

Rafik: @Arsene it depends of the content there. I dont see something in specific

Sam Lanfranco (npoc/csih): Hi crew, sorry for late....have been away

Poncelet Ileleji: @kathy thnks for the good explanations, its really worth looking into now

Kathy: @tx Poncelet

Nick Shorey: @Kathy can you just clarify my understanding of the risk please - that registries will apply for a string e.g. "search" for commercial use, then sell that entire string to Google?

Liz Orembo: is someone rise experiencing breaking audio?

Farzaneh Badii: eh don't kill me but I hate the idea of closed generics . I think it's a good way of abusing IP (not all of them, it depends)

Arsene Tungali: @liz sorry to hear that

Krishna Seeburn - Kris: it would be good if kathy can give a sample note and all the issues...whilst the subsequent WT5 start up the work...we are wairing on for co-leaders and then it would go to work...

Liz Orembo: no worries @ Arsene

Sam Lanfranco (npoc/csih): Don't we have that protection by not allowing a closed generic that is not a brand applicant or a profession? The "openness" can be protected in the terms of the contract. Am I wrong?

Nick Shorey: @kathy - got it =) thanks - I agree wholesale of bulk TLD space could be a worrying workaround

Rafik: @Nick dont give them such ideas :)

Krishna Seeburn - Kris: i think they already have these ideas....

Nick Shorey: @Rafik - forget them - just given myself a great idea! Who's in?

Bruna Santos: 0/

Sam Lanfranco (npoc/csih): In the 1700's the English called this "The Enclosure Movement")-:

Sam Lanfranco (npoc/csih): Rafik's idea is good in any event, but such applicants should not have second level exclusive control, this would still open the door to what is worrying here.

Bruna Santos: WT5: still getting the co-leader applications, and after that they'll send the call for volunteers

Rafik: all gTLD are generics but those are closed :)

Kathy: right

Rafik: thanks Bruna for the update

Martin Silva Valent: The problem is closing generic terms, is ok for anyone to apply for them as long as anyone with legitimate intentions can get them

Bruna Santos: @kathy, I am also on the work track (just joined actually) do you want to maybe work on a doc to share with the list of Abu Dhabi?

Krishna Seeburn - Kris: ONLY two co-leaders needed now... one was suggested to GNSO out of the four and waiting for the GAC...since my understanding is that they are writing up a letter to explain their position before anything

Kathy: @Bruna: sure, good idea! I would be happy to work with you.

Bruna Santos: Great! (:

Kathy: Tx All for the discussion!

Nick Shorey: @Ayden has ICANN responded yet?

Kathy: Ayden, are there any allies on this?

Kathy: Can we join with other SGs?

Arsene Tungali: it might be strong if we join other sg, kathy

Krishna Seeburn - Kris: @ayden.....that is true..we are blocked....on that group

Arsene Tungali: Go Ayden

Krishna Seeburn - Kris: the rdsWG is in a blockade,,,,,

Krishna Seeburn - Kris: we are hardly moving there

Ayden Férdeline: trying to externalise their risk all to ICANN. why ICANN listens to this I do not understand

Poncelet Ileleji: @Ayden what advocacy strategy will you advocate we use

Rafik: @Nick one concern with GAC is that we hear more from LEA than DPA.

Nick Shorey: @Rafik - I agree, which is precisely why we need to raise this to them and highlight their responsibility for consultation across their govt departments to review these issues

Farzaneh Badii: NO I AM FIGHTING THAT

Farzaneh Badii: lets see if I win this fight

Arsene Tungali: that's my point Rafik. maybe the cross community session should be discussed at ncsq level inorder to quickly have a say on the agenda

Krishna Seeburn - Kris: @kathy very true

Poncelet Ileleji: @Farzi +1

Rafik: @Arsene I am not sure we are talking about the same thing. I am suggesting that we may submit proposals for next meetings. Farzaneh is working on current session for Abud Dhabi meeting

Arsene Tungali: rafik, do u mean ncsq to submit proposal for next meetings and leave it to farzi (ncuc) to work with BC on abu Dhabi session? sorry if i am confusing

Tapani Tarvainen: I've got to go now, bye all.

Ayden Férdeline: You know the GAC far better than I do Nick and how they work, but sadly I do not see the GAC calling in data protection authorities, whereas I do see them constantly bringing in law enforcement authorities...

Ayden Férdeline: But if we did get GAC pressure that would be very helpful

Kathy: Good point, Nick.

Kathy: It's time for them to wake up on these issues.

Poncelet Ileleji: @Nick can we engage the GAC directly, its worth the try in a face to face meeting

Kathy: But I see Ayden's frustration with GAC's long delay on this issue

Kathy: All I have to run to my next meeting.

Kathy: Great discussion!

Kathy: Tx Rafik and All!

Poncelet Ileleji: Bye Kathy and Tapani

Bruna Santos: NCUC Blog has a report/post on the webinar:
<https://www.ncuc.org/2017/10/09/compliance-consumer-safeguard-overview-webinar-discussions-with-the-community-on-dns-abuse/>

Arsene Tungali: yes a session planned for a u dhabi on consumer safegjsrds

Nick Shorey: @Ayden you're right - they're off the ball so we need to join the dots. The LEAs are there because they discover it themselves through operational challenges. I'll share some more extensive comments on the list

Rafik: LEA are more organized and got their own working group

Nick Shorey: but I think there's value in linking the NGRDS data controller discussion into ICANN's review, and using the GAC who have leverage (if harnessed)

Farzaneh Badii: yes

Bruna Santos: he is

Rafik: yes a good idea

Farzaneh Badii: ok I will tell him

Rafik: NGRDS?

Rafik: ah new generation, lost in acronym game

avri doria: i ain't gone yet.

Raoul Plommer: Avri starts at the board when?

Rafik: in abud dhabi at the end

Farzaneh Badii: sorry I need to go .bye everyone

Arsene Tungali: avri will be seated in abu dhabi

Poncelet Ileleji: bye Farzi

Arsene Tungali: do our concelors hav a position on this?

Arsene Tungali: i mean about the change meeting?

Juan Manuel Rojas: Is Rafik speaking? I can't hear anything.

Ayden Férdeline: he is speaking, yes

Arsene Tungali: maybe hav 7 days for meeti g B?

Arsene Tungali: better planning i see, thanks rafik

Ayden Férdeline: i think i misspoke earlier and made up a word, 'advocist'? did i say that? if so, i meant to say, i am not an 'activist' ;-) just couldn't think of the word at the time...

Arsene Tungali: lol ayden

Ayden Férdeline: strategy session is week of 29 january in Los Angeles

Arsene Tungali: my battery is dying, leaving now. thanks everyone for a wonderful meeting

Ayden Férdeline: i think the questions in the consultation are quite open ended

Liz Orembo: should we do an evaluation roof the fellowship within the ncuc to see how we can improve it?

Ayden Férdeline: we should also map out what resources we are given (as NCSG, NCUC, and NPOC) so members know what 'carrots' are out there if they take on leadership roles?

Ayden Férdeline: just an idea

Liz Orembo: our outreach activities also need evaluation.

Rafik: you mean travel support? since that is consultation is about

Ayden Férdeline: yes... but i meant, make it more known to our members so they are aware\

Poncelet Ileleji: @Nick good point

Liz Orembo: yes,n more specifically for relatively new members

Ayden Férdeline: I know the answer - but I think our members do not

Ayden Férdeline: and if they were aware - along with the slots for CROPP, intersessional, strategy retreat etc - it could encourage some to become more involved

Ayden Férdeline: just a thought

Ayden Férdeline: we had 21 slots (7 NCSG, 7 NPOC, 7 NCUC) to Iceland, for instance. i think we just need to make these things clearer on our website so if members wonder 'what is in it for me', we have a real sales pitch. people don't join for the travel and we do not want tourists, but we should make benefits known to others.

Ayden Férdeline: it's the only carrot we really have, for better or for worse.

Poncelet Ileleji: good point @Ayden +1

Farell Folly: thank you, too Rafik

Louise Marie Hurel: +1 Ayden. It has be transmitted in a clearer way

Louise Marie Hurel: to be*

Ayden Férdeline: thank you Rafik

Ayden Férdeline: thank you all

Louise Marie Hurel: Thanks all

avri doria: bye

Sam Lanfranco (npoc/csih): Bye

Farell Folly: See you all next time. I won't be able to make it in Abu but in Geneva for IGF probably

Bruna Santos: thanks all!

Poncelet Ileleji: bye al thanks @rafik

Nick Shorey: Thanks Rafik and all!

Raoul Plommer: thanks everyone!

Abdul Saboor Malik: Good Bye :)

Maryam Bakoshi: Good bye all!
