

Maryam Bakoshi: @Stephanie

Farzaneh Badii: GAC and Board always do things behind the scene and circumvent GNSO process

Farzaneh Badii: It's frustrating. I really think the next liaison has to address this more seriously

Amr Elsadr: Farzi..., they've been doing it less than they used to recently. This topic is especially strange for them to do so, since there have been so many attempts from the GNSO to get GAC input.

Farzaneh Badii: Thanks Amr

Farzaneh Badii: and Hello Anna Loup. good to see you here :)

Anna Loup: Thank you, Farzaneh! Great to be here

Carlos Raúl G.: I have been disconnected for the 3rd time in this call. The new adobe paltform is performing lousy

Edward Morris: Excellent point Amr

Carlos Raúl G.: Please staffmake a note fo this. It was the same in yesterdays NPOC call

Amr Elsadr: Sorry. Couldn't hear anything. Could you type your comment in teh chat please?

Farzaneh Badii: sorry I have to leave now

Klaus Stoll: Sorry Amr, nothing to report at all.

Edward Morris: Thanks Farzi!

Maryam Bakoshi: Thanks Farzaneh for attending the meeting

Amr Elsadr: @Klaus: Nothing to report? I thought the DT was done with its work?

Carlos Raúl G.: If there is a group, I volunteer to be part.

Carlos Raúl G.: Butdont expect oo much beef out of the stduy

Stefania Milan: sorry folks for joining so late. My internet at home stopped working and had to rush to the office..

Niels ten Oever: I think Vidushi might be interested in this

Niels ten Oever: she wrote the report for the Subsequent WG group

Niels ten Oever: and touched upon this point extensively

Niels ten Oever: Also 100% agree on integration of points

Edward Morris: @Niels. I think there are a few members who expressed interest on the list, we just need to provide a vehicle for them to work together to do a PC. Thanks Carlos!

Carlos Raúl G.: thanks Rafik

Carlos Raúl G.: will propose something on those lines

Niels ten Oever: Psychedelic happening with Stephanie, total echo

Niels ten Oever: Better now

Rafik: @Carlos there will be session about underserved session in hyderabad. and yes there are several effort going on including GDD led

Rafik: strategy groups are led by GSE staff

Joan Kerr: Hello Everyone

Joan Kerr: Sorry about being late

Amr Elsadr: I believe the IAG was also led by GDD, as it was considered to be working out implementation details.

Rafik: @Amr GDD seems acting as free agent sometimes with little accountability :)

Amr Elsadr: @Kathy: The Council didn't accept the recommendations of the IAG, but still no clear path forward now.

Amr Elsadr: @Rafik: So what else is new. ;-)

Amr Elsadr: @Rafik: Seriously though, like Stephanie said, the policy needs to be revised. My understanding is that the policy is actually really vague, and needs more work.

Edward Morris: Completely agree Amr

Nadira ALARAJ: @Amr, but there is a need to cross community revision work on the policy to have a better understanding

Amr Elsadr: @Nadira: Yes, and that is why Stephanie was proposing a new PDP to revise the policy. It's just that nobody has the bandwidth to do this right now.

Nadira ALARAJ: What I hear there each work in silo

Nadira ALARAJ: @thanks Amr, I'm new here and trying to understand things

Poncelet Ileleji: concurred

Carlos Raúl G.: Sorry, but I have to run now. Good day to all and will hear a few of you in my last call as a councillor net thursday

Poncelet Ileleji: thanks also @Amr

Tapani Tarvainen: Bye and thanks Carlos

Joan Kerr: Thanks Amr.

Amr Elsadr: @Nadira: Thanks for participating. And please don't stop asking questions and making suggestions. I'll always help to the best of my abilities. :)

Amr Elsadr: And please keep joining these NCSG calls.

Kathy: tx you, Ed.

Anna Loup: +1 thanks Kathy!

Amr Elsadr: Why don't we, as a stakeholder group, approach the Registries on this? Ask them what the hell is going on?

Anna Loup: yes I agree. Donuts has a history of doing this

Anna Loup: I would join!

Kathy: subgroup sounds like a good idea; publicity sounds like a very good idea.

Stefania Milan: excellent idea Ed. I would be happy to help you and Kathy with this

Kathy: great, tx Stefania!

Kathy: @Maryam, could you keep track of volunteers for us?

Edward Morris: I don't see both approaches as being mutually exclusive.

Amr Elsadr: Agree Kathy. We need to work out our own positions and questions first before approaching them.

Amr Elsadr: BTW..., dotHealth LLC did the same thing Donuts did too. This isn't the first time they do this.

Kathy: dotHealthy too. sigh

Rafik: donuts seems a multi-recidivist in those kind of deals...

Rafik: that is an understatement Tapani, an understatement

Kathy: @Rafik, agreed

Stefania Milan: the Council received a draft schedule

Maryam Bakoshi: Yes correct

Amr Elsadr: @Kathy: dotHealth's deal was with LegitScript, who I know you're familiar with. :)

Kathy: very familiar!

Rafik: @stefania that is an old schedule

Amr Elsadr: Speaking for myself, I'm happy to ask James B. to continue.

Stefania Milan: It seems to be there is a consensus around James Bladel

Kathy: +1 Amr

Kathy: and Stefania

Amr Elsadr: Sounds good Tapani.

Edward Morris: Good news for James. :)

Amr Elsadr: I'm fine with Heather carrying on for another year too, if there is an understanding that our candidate will VC for two years as well.

Kathy: good meeting, Tapani, tx you!!!

Edward Morris: SAme here Amr

Stefania Milan: +1 Amr

Poncelet Ileleji: Thank you @Tapani

Joan Kerr: Thanks Tapani, Everyone

Stefania Milan: I had problems too, but not sure it depends on my own connection

Marilia Maciel: Lost connection a couple of times here

Amr Elsadr: Thanks all. Later.

Anna Loup: Thank you Tapani!

Nadira ALARAJ: Thanks

Stefania Milan: thanks Tapani!

Narine Khachatryan: thanks

Maryam Bakoshi: Thanks all, good bye!

Poncelet Ileleji: bye all
