

Maryam Bakoshi: Dear all, welcome to the NCSG Monthly Policy Call on 22 Aug 2017 at 1300 UTC

Ayden Férdeline: Hello all. I am only able to listen in today and will make interventions or comments in the chat. Sadly I won't be able to speak over audio. Looking forward to the meeting beginning soon :)

Maryam Bakoshi 2: Thanks Ayden, this is noted

Martin Silva: Hi all, hope you had a good weekend.

Ayden Férdeline: thank you Maryam

Maryam Bakoshi 2: Apologies all, the line will be muted now

avri doria: i am not positive this will work from here, but this is a day off so i am the one of the few using the satellite connection. hopeful. if it fails i will try to skype it (that does not even work when 30+ people are using the single satellite connections)

Tatiana Tropina: Hi all, as I am boarding the train - I don't know how long I can stay on the call and am also mostly in the listening mode. Sorry, business trip.

Tapani Tarvainen: AOB topic: unless someone objects I'm going to notify secretariat that Rafik'll be our 3rd SSC representative.

Farell FOLLY: Hello all

Shiva Upadhyay: Hi,

Maryam Bakoshi 2: Welcome all

MAHAMAT Haroun: Hi

Tatiana Tropina: I think we don't have any other choice than wait for Keith really -- he was quite ok with shifting the deadline?

Tatiana Tropina: if we vote 6 of us to defeat the motion, whom can we have voting against from NCPH?

Tatiana Tropina: if it's a simple majority

Tatiana Tropina: Sorry that am typing the connection here on the train is so bad I can go to black hole any time. Agree about negotiations. But I think the main point is that Keith agrees before the call on 24th :)

Tatiana Tropina: Unfortunately I wasn't a part of an earlier negotiations -- so seems that this hope is the only thing I can have now

Farzaneh Badii: I can't hear Rafik anymore

Martin Silva: I would follow any recommendation of you Rafik on this, you are one of the most heavily involved

Farzaneh Badii: thank you . it is

Stephanie Perrin: apologies for being late, have had power outage from thunder storm. nothing working properly

Joan Kerr: Hi Everyone, my apologies for being late

Rafik: <https://gnso.icann.org/en/correspondence/atallah-to-bladel-et-al-01aug17-en.pdf>

Stefania Milan: Hello. Sorry for joining late.

avri doria: Dave always comes in many decibels louder than everyone else and somewhat distorted.

Ayden Férdeline: first result? is the leadership team asking it be revised in some way?

avri doria: it hurts in earphones

Ayden Férdeline: I am worried that the legal advice is going to be watered down

Ayden Férdeline: I hope all drafts can be published lest we lose confidence in the independence of it

David Cake: I don;t know why Avri, I am just uysing my laptop inbuilt mic, nithing fancy.

Stephanie Perrin: ICANN has an infinite capacity to ignore a direct advice when it comes to privacy. It is not like the DPAs ha ve not been telling them the same thing for 20 .. years

Maryam Bakoshi 2: My apologies

Maryam Bakoshi 2: we are muting the line now

Maryam Bakoshi 2: Thank you!

David Cake: 'Grow up and get a privacy policy' Yes yes yes.

Rafik: text for abu dhabi t-shirt

Krishna Seeburn (Kris): +1

Tatiana Tropina: :D Rafik

Rafik: <https://gnso.icann.org/en/drafts/icann60-draft-prelim-block-schedule-27jun17-en.pdf>

Joan Kerr: We are working on our meetings at the moment.

Martin Silva: "Tapani Tarvainen: AOB topic: unless someone objects I'm going to notify secretariat that Rafik'll be our 3rd SSC representative."

Stephanie Perrin: Lets just tell her

Martin Silva: +1

renata: +1

Stephanie Perrin: Shall I update on auction proceeds?\

Tapani Tarvainen: Thank you all. I have another call in 2 minutes so I have to leave.

renata: tks

Tatiana Tropina: I am very sorry - I can disappear at any moment as connection is getting super bad on the road. Apologies in advance if I do.

Farzaneh Badii: Sorry I have another call too

Farzaneh Badii: with Tapani :) see you soon

Stephanie Perrin: I don't think it is particularly relevant to us.

Krishna Seeburn (Kris): i will like to review

Stephanie Perrin: DNS abuse might well be

Stephanie Perrin: nope

Ayden Férdeline: sorry

Joan Kerr: Sorry I have to leave for another meeting

Ayden Férdeline: deadline 24/08 for opportunity to comment on the suggestions from other stakeholder groups

Rafik: <https://www.icann.org/dataprotectionprivacy>

Stephanie Perrin: oh, that is hard deadline to meet indeed we should probably comment

Rafik: <https://www.icann.org/news/blog/personal-data-use-matrix-now-available-for-public-review>

Stephanie Perrin: As I said, it has been very quiet.

Ayden Férdeline: this was a different task

Ayden Férdeline: we did not respond to the first opportunity to comment

Stephanie Perrin: Volunteers to read the comments received and prepare a response would be most welcome

Rafik: @steph for which group?

Ayden Férdeline: I have read them. I'm not sure we really need to respond. I think the registrars have things under control, for now

Stephanie Perrin: for the GDPR data matrix. Law enforcement and "consumer protection" appear to have shown up in force

Robin Gross: Which of the NCSG Councilors plan to be Abu Dhabi? Are there any who won't be there?

Stephanie Perrin: That had been my thought too Ayden but perhaps it is inadvisable to let law enforcement own the consumer protection item

Ayden Férdeline: I will take another look and consider drafting a response if I think it will help

Martin Silva: @robin, I think all councilors are going to be/try to be there. At least I haven't heard of anyone saying they weren't travelling, maybe someone knows better

Martin Silva: someone else^

Raoul Plommer: Stephanie, where's the exact link to the document that needs comments?

Stephanie Perrin: I may not be able to make it. to Abu Dhabi

Stephanie Perrin: scroll up in the chat Raoul I think it is posted there, Rafik posted it

Martin Silva: Guys, I gotta leave the Call, But I wanted to say about the RPMs that we are waiting for data collections about the sunrise to debate about it. Interesting is that some of us really want to discuss about the basic existential question about this process, and other just want to "review it" to see if there is anything to improve, specially to make it to the deadlines for the second round.

Martin Silva: I would say next weeks might bring some fire fight in the RPMs regarding the data collected debate

Rafik: thanks Martin

renata: update from ssc ssc2 alternate to emily taylor was selected - independent norm richie. motion to be presented by julf. preparation of atrt3 is undergoing

Martin Silva: gotta go now, cheer to all, see you on the email list. Let me know if there is anything else regarding RPMs or others that I can be helpful

Bruna Santos: tnks, Martin!

Rafik: as I said we have 4 adhoc groups in ncs, anti-abuse, geonames, auctions, gdpr

Rafik: if you want to join let know maryam or me

avri doria: thanks Robin

renata: the session jeremy suggested?

Robin Gross: Agree with Stephanie that we'd love for members to roll up their sleeves and join a working group. We need you!

Rafik: @renata that was proposed for ncuc

renata: ok

Robin Gross: thanks, Rafik! Great meeting.

Bruna Santos: thank you very much, Rafik!

Bruna Santos: bye everyone!

Raoul Plommer: Cheers!

Maryam Bakoshi 2: Thank you all, good bye
