Avri Doria:ie. section 3 is the meat of the charter.

Marika Konings:Avri, your line is breaking up

Avri Doria:targets are useful

Marika Konings 2:I think the current trend is a Board liaison ;-)

Avri Doria:i just dial in and am the 401 number

Marika Konings 2:That would also have budget implications and will need to be planned accordingly

Marika Konings 2:We'll also have some time on the GNSO weekend session to talk about this topic - probably on Saturday.

Ram:I like it

Ram:we can walk people through - as part of a session, rather than a session in and of itself.

Ram:45 minutes feels like plenty of time

Marika Konings:It is currently scheduled for Saturday from 10.00 - 10.45. Do note that the schedule is still tentative.

Ram:+1

Avri Doria:are more people in town for a sunday session than a saturday session?

Avri Doria:supported travellers do not get to cme early

Charla Shambley:You can find call notes, handouts and recordings of today's call on the wiki:
