

Sequencing of EWG RDS Principles as input to GNSO PDP (Draft 4)

The flow charts that follow suggest grouping and sequencing of principles contained in the EWG's Final Report on a proposed Next-Generation Registration Directory Service (RDS).

These charts identify a phased PDP WG process consisting of:

- | | |
|---|-------------------|
| Phase 1) Policy - Requirements Definition | (WHY) |
| Phase 2) Policy – Functional Design | (WHAT) |
| Phase 3) Implementation Guidance | (Guidance on HOW) |

along with pre- and post-PDP WG steps.

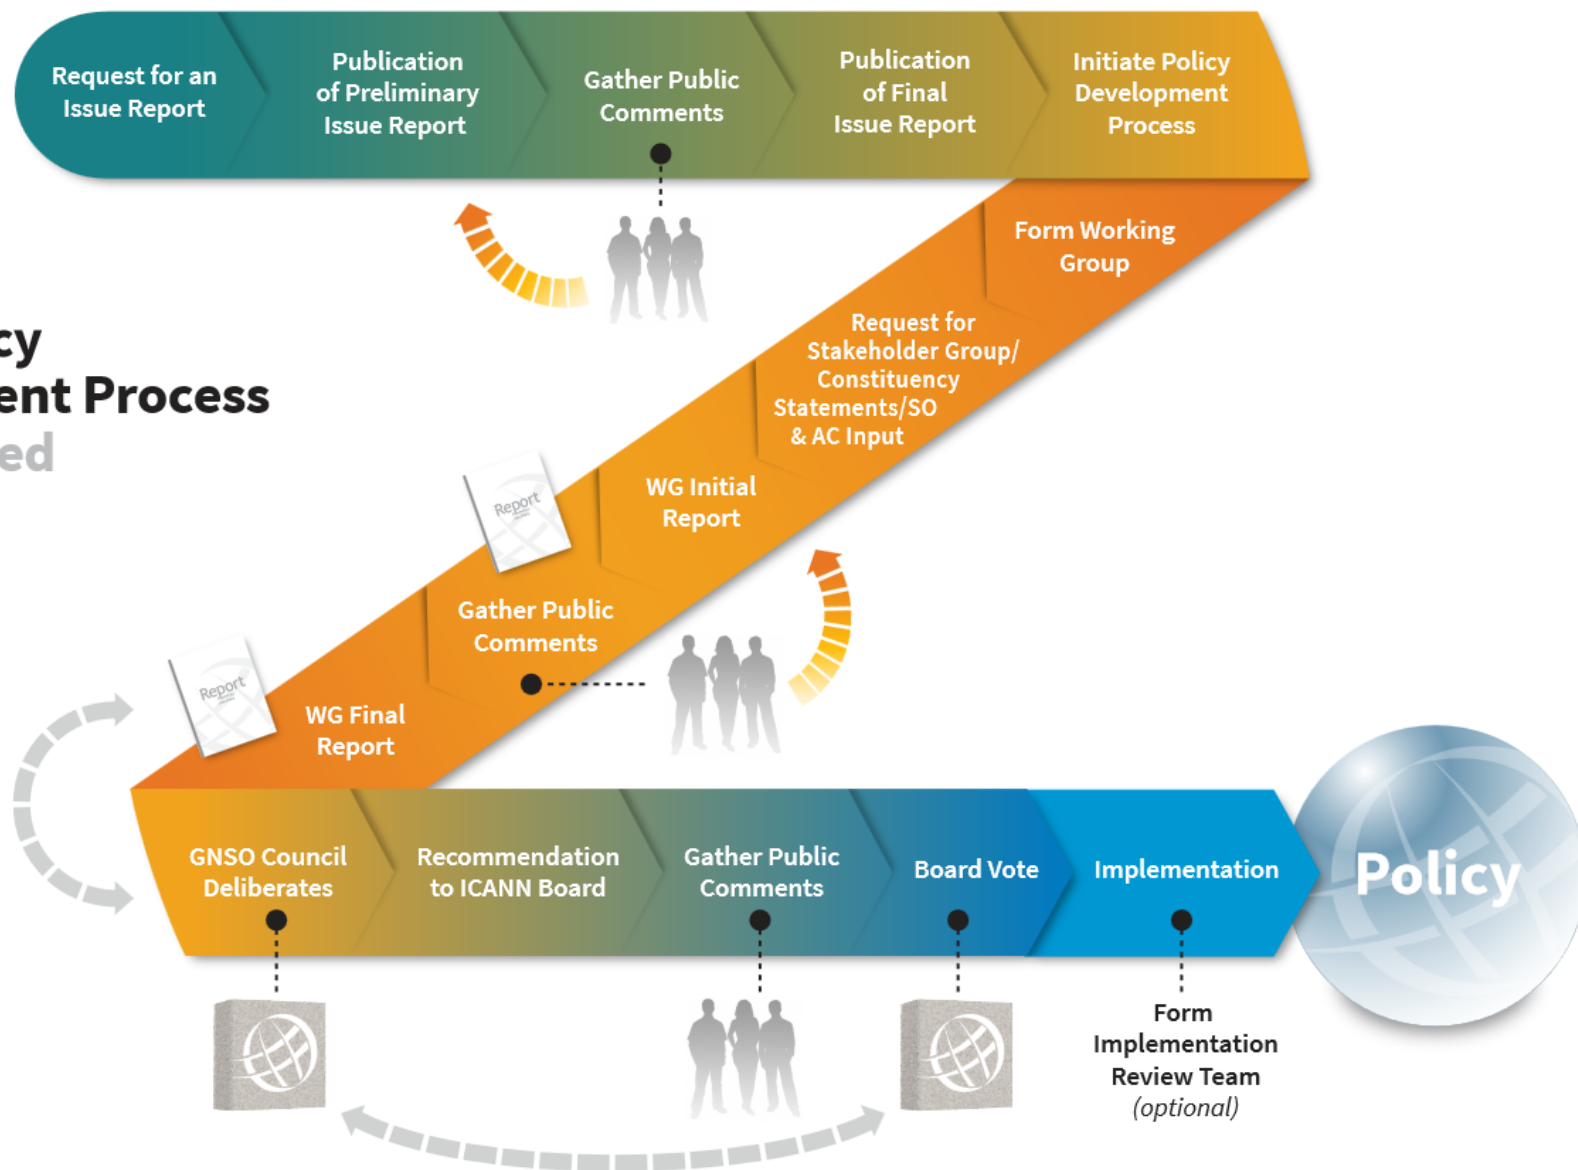

Before Phase 1, preliminary steps must be completed as shown on page 4, including publication of a Final Issue Report and PDP WG charter, adoption by the GNSO Council, and PDP WG formation.

During Phase 1, the PDP WG would examine all RDS policy requirements at a high level. The GNSO Council would review/approve Phase 1 outputs before the PDP WG proceeds to Phase 2.

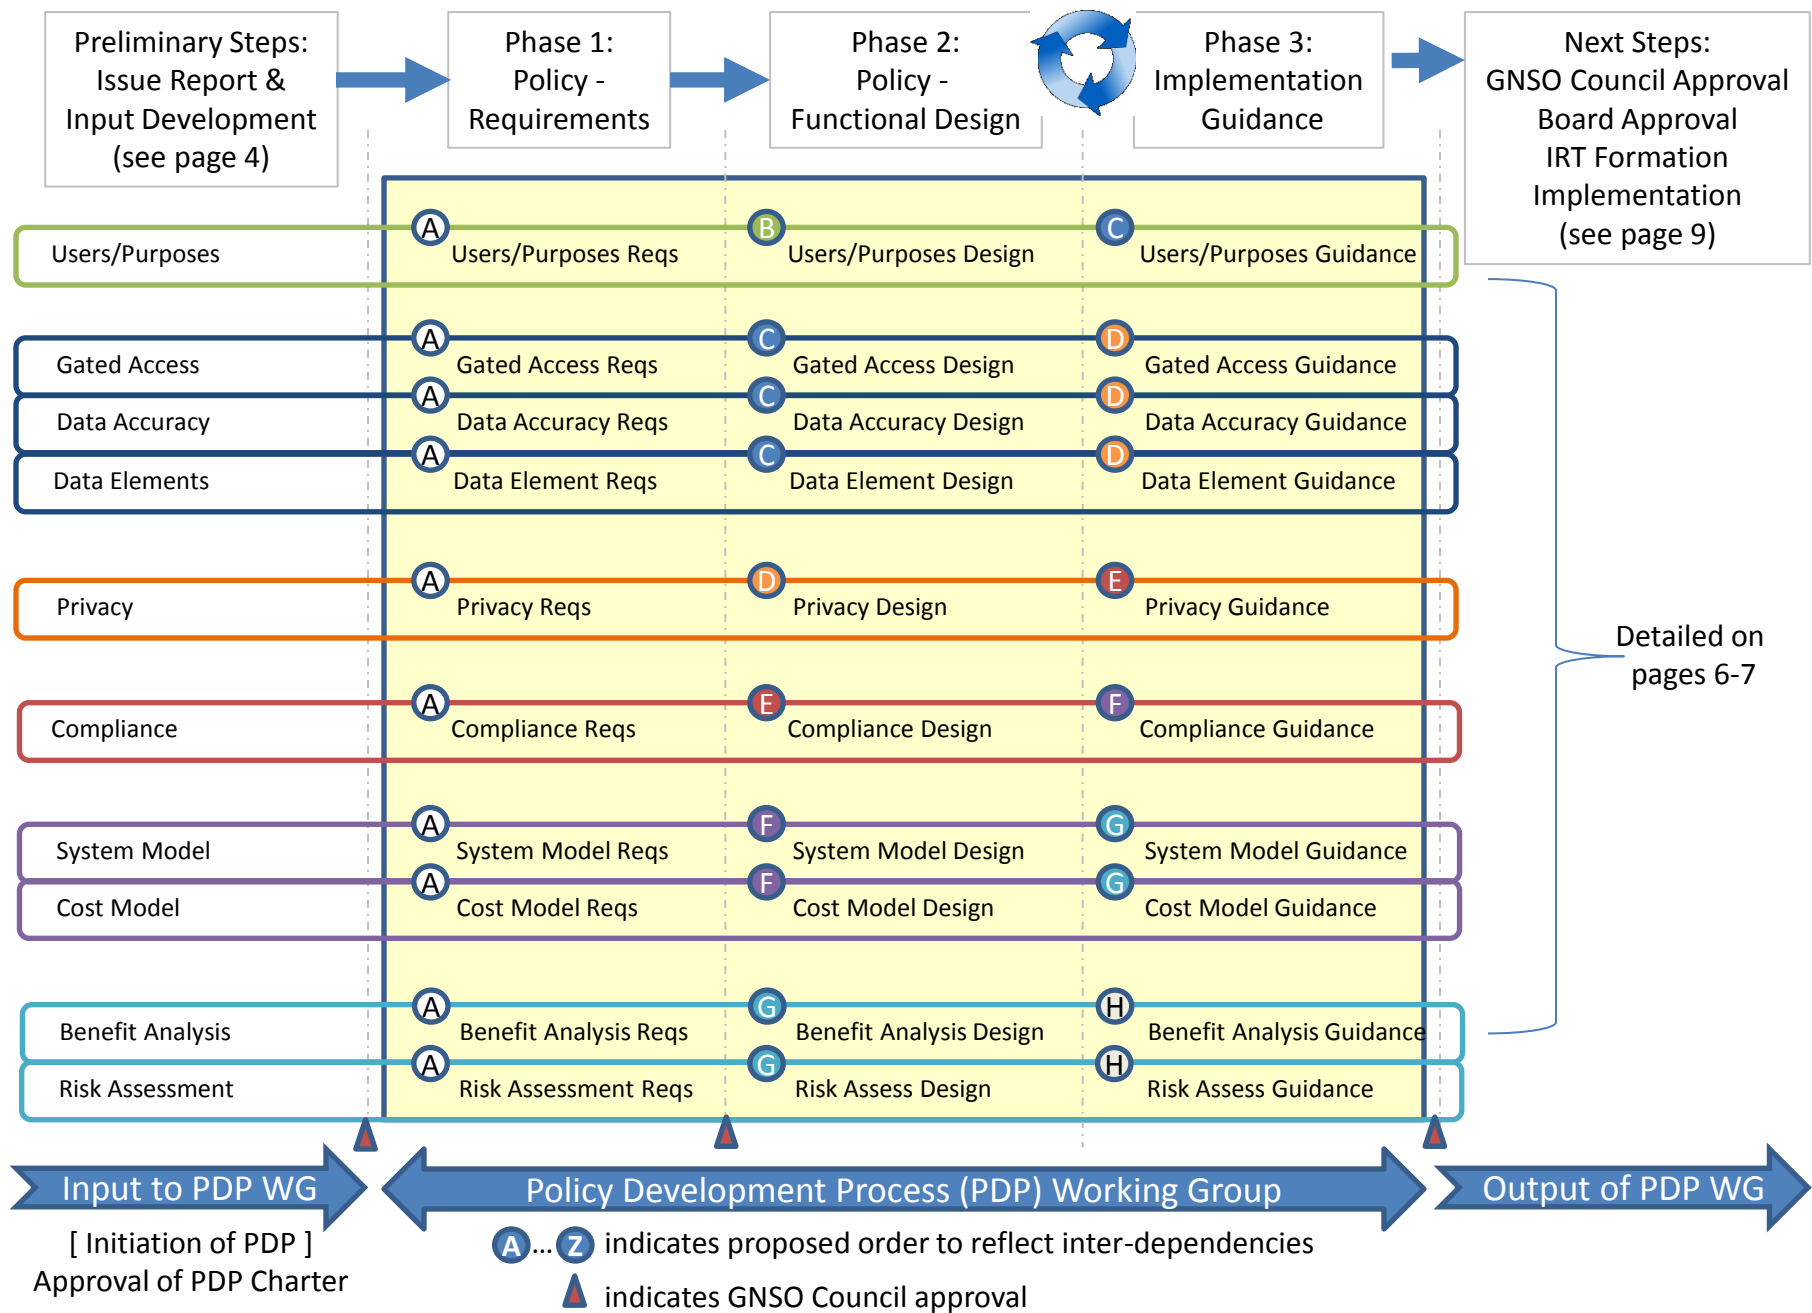

During Phase 2, opportunities for parallel design are shown, sequenced to reflect inter-dependencies. For example, group B policies must be drafted before group C can start, but group C policies could potentially be drafted in parallel by PDP WG subteams, given sufficient resources and coordination. The GNSO Council would periodically review PDP WG work-in-progress to ensure sustained progress and alignment with Phase 1 requirements.

During Phase 3, the PDP WG would dive more deeply into each policy group to create implementation guidance. Details considered in Phase 3 may require refinement of certain Phase 2 policies; refinements must be carefully coordinated to manage interdependencies as further described on page 8.

After Phase 3, PDP WG outputs would feed into the next steps detailed on page 9 (e.g., IRT & Staff implementation efforts, informed by PDP WG implementation guidance).

GNSO PDP Materials: <http://gnso.icann.org/en/node/31379/>

Preliminary Steps

Nov 2012	Board	<input checked="" type="checkbox"/> Direct preparation of a (PDP) Issue Report
Nov 2012	Board	<input checked="" type="checkbox"/> Launch the EWG
Mar 2013	Staff	<input checked="" type="checkbox"/> PDP - Preliminary Issue Report
Mar-Apr 2013	Community	<input checked="" type="checkbox"/> Public Comment Forum (on above)
Jun 2013	EWG	<input checked="" type="checkbox"/> EWG Initial Report
Jun-Aug 2013	Community	<input checked="" type="checkbox"/> Public Comment Forum, Consultations (on above)
Nov 2013	EWG	<input checked="" type="checkbox"/> EWG Update Report
Dec-Feb 2014	Community	<input checked="" type="checkbox"/> Public Comment Forum, Consultations (on above)
Jun 2014	EWG	<input checked="" type="checkbox"/> EWG Final Report
Oct 2014	EP-WG	<input type="checkbox"/> Informal collaboration group to recommend PDP WG Process, Charter, and Inputs
	Staff	<input type="checkbox"/> PDP – New Preliminary Issue Report
	Community	<input type="checkbox"/> Public Comment Forum, Consultations (on above)
	Staff	<input type="checkbox"/> PDP - Final Issue Report
	GNSO Council	<input type="checkbox"/> PDP - Refine Charter for PDP Working Group
	GNSO Council	<input type="checkbox"/> PDP - Adopt Charter (start of PDP WG process)

See proposed EP-WG Workplan for further details

Available and Recommended Inputs for PDP WG (to be identified by EP-WG)

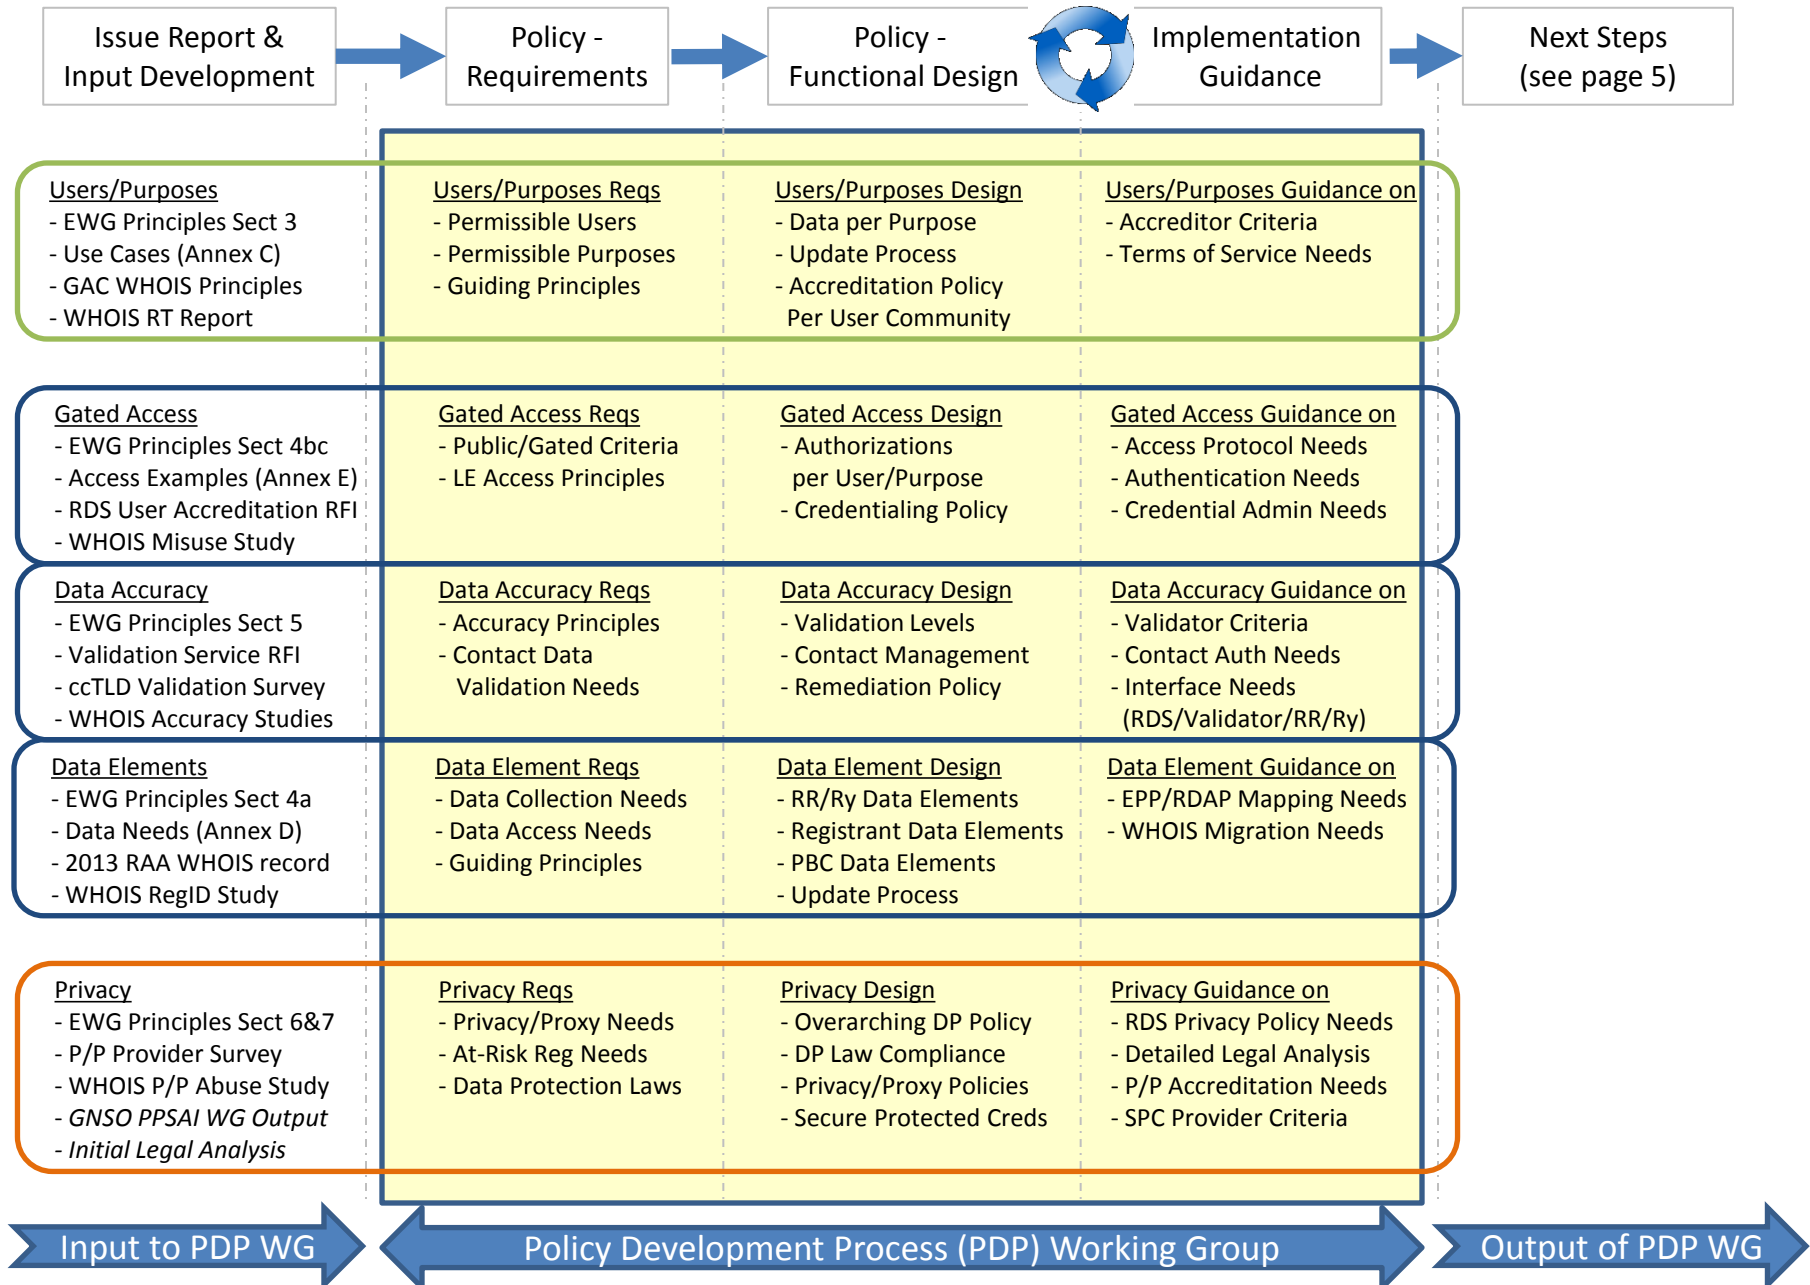

Available Inputs include

- EWG Final Report
- EWG Research on Accreditation, Validation, Privacy/Proxy, Cost, Risks/Benefits
- WHOIS Review Team Final Report
- GAC WHOIS Principles
- 2013 RAA WHOIS Requirements
- WHOIS Studies on Accuracy, Registrant Identification, Misuse, P/P Abuse
- IETF RFCs on RDAP and EPP

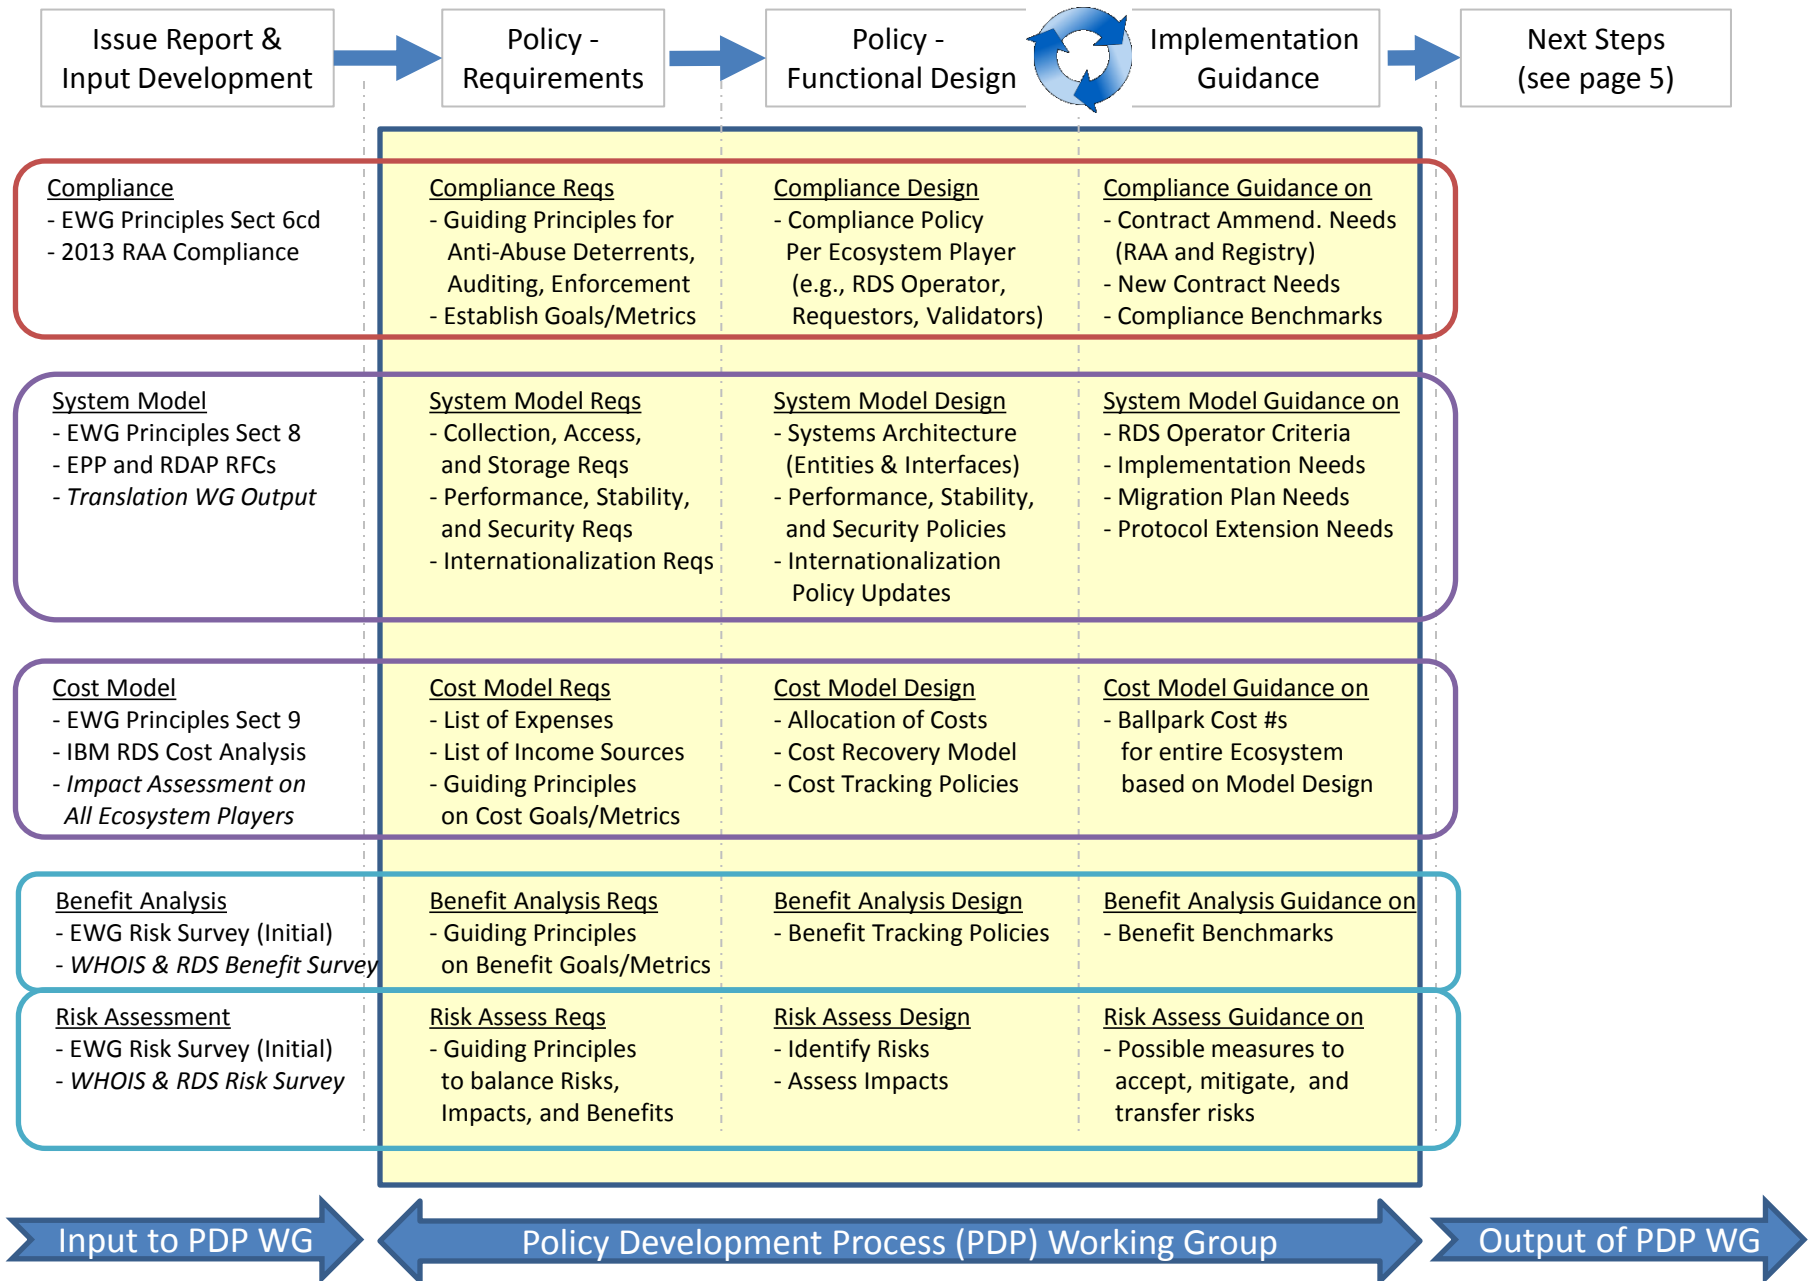

Recommended Additional Inputs	Essential?	When needed?
Stakeholder input on costs and benefits*		
Stakeholder input on risks and impacts		
Initial legal analysis		
PPSAI WG output		
Translation/Transliteration WG output		
Community input on Preliminary Issue Report and Proposed PDP WG Charter		

* For example, solicit input on benefits and costs from all stakeholders.
This would be done initially and on an on-going basis to measure efficacy.

PDP WG Process

PDP WG Process

Further PDP WG Recommendations

Oversight

To ensure ensure alignment with Phase 1 requirements, oversight should be provided by a coordination team composed of (for example) the PDP WG chair, subchairs for each PDP WG subteam, and one or more GNSO Council Liaison(s).

Timeline

To foster sustained progress and timely completion, the PDP WG should work towards a defined timeline and targets (e.g., complete Phase 1 in 90 days).

Methodology

To facilitate productive dialog, the PDP WG should hold periodic face-to-face conferences -- for example, meeting face-to-face in subteam sessions schedule over 1-2 days, followed by a plenary meeting for cross-team discussion.

Next Steps (using PDP WG's output)

* See GDD Consensus Policies Implementation Framework for further details on each phase
