ALAC Proposal

Capacity Building Webinar - 10 December 2014

The U.S. government's announcement

- + On 14 March 2014, the U.S. Government (USG) announced its intent to transition its stewardship of the IANA functions to the global multistakeholder community;
- + As the first step, it asked ICANN to convene global stakeholders to develop a proposal to transition the current role played by the USG;
- + ICANN was asked to serve as a convener based on its role as the IANA functions administrator (since 1998) and the global coordinator for the Internet's Domain Name System (DNS).
- + The multistakeholder community has set the policies implemented by ICANN for more than 15 years.
