

# WP1 – Budget and Strategic Plan Veto

---

## What are the open issues?

- Determine best path to prevent board passivity on continuing resolution
  - ie constrain last year's budget, criteria to escalate to other accountability mechanisms (ie veto caps)
- Determine if budget and strategic plans should be treated differently
  - Do they need different caps and timeframes?
- Require veto rationale to be matters that had been raised in public comment
- Develop a “standard for veto”? (to prevent horse trading)
- Determine new questions for public comment
