## Cross-Community Working Group on Enhancing ICANN Accountability Work Area 2: Review Input from Public Comment and Categorize Items into Work Streams 1 & 2 Draft 3, 14-Dec-2014

Note: Work Stream 1 is designated for accountability enhancements that must be in place or firmly committed *before* IANA transition occurs. All other items could be in Work Stream 2, provided there are mechanisms in WS1 adequate to force implementation of WS2 items despite resistance from ICANN management and board.

1. Mechanisms to give the community authority over the ICANN corporation		
Bring the <i>Affirmation of Commitments</i> (incl the Reviews) into the ICANN bylaws	BC, USCIB, SIIA, Verizon, Edward Morris	WS1
Amend ICANN bylaws to recognize a permanent cross-community representative structure (all ACs, SOs, Constituencies) with authority to:	BC, ITIC, Brian Carpenter, CNNIC, Siva, TPI, Verizon, NCSG, Just Net, E.Morris	WS1
Appoint members of Affirmation review teams	BC, Spain, Avri Doria	WS2
Review a board decision, or resolve a dispute (option to use independent panel)	BC, ITIC, Heritage, SIIA, EC, Mueller, Google	WS1
Approve changes to ICANN bylaws or Articles, with 2/3 approval	BC, ITIC, Google, SIIA, Hutty	WS1
Approve annual proposed ICANN budget	BC, ITIC, USCIB	WS1
Recall one or all ICANN Board members	BC, Avri Doria, NCSG	WS1
Change bylaws to improve Reconsideration Process:  Trigger when board acts arbitrarily or capriciously;  Reconsideration decisions subject to Independent Review	Google	WS1
Require supermajority for Board to approve action despite advice to the contrary from ACs or significant subsets of SOs	ISPCP, ITIC	WS1
Ensure that the ICANN Board can be held to its own Bylaws, and effective remedy granted if breach found by independent adjudicator.	Malcolm Hutty	WS1
Prevent ICANN Board redefining mission/scope in Bylaws without community consensus	Malcolm Hutty	WS1
Affirmation Review teams to have access to all internal documents	Avri Doria, MPAA, CIS, Morris	WS2
Affirmation Accountability & Transparency Review Team could recommend sunset of original reviews and create new reviews	BC, USCIB	WS2
Change standard for <i>Affirmation</i> reviews from "in the public interest" to "for the protection and advance of human rights and internet freedoms"	NCSG, Robin Gross	WS2
Let local courts hear complaints on free expression, security, and privacy	NCSG	WS2
Establish an independent inspector general for ICANN	SIIA	WS2
