   Maryam Bakoshi:Dear All, welcome to the NCSG Open Meeting on Tuesday 16th December, 2014
   Maryam Bakoshi:Welcome, Milton
   Milton:Hello, Maryam
   Maryam Bakoshi:hi :)
   Maryam Bakoshi:Welcome, Amr
   Amr Elsadr:Hi Maryam. Hi all.
   Amr Elsadr:Although "all" seems rather limited!! :)
   Matthieu Camus:Hi
   Amr Elsadr:Did I lose audio, or is there just noone talking?
   Maryam Bakoshi:Welcome to the meeting, Matthieu & Robin
   Maryam Bakoshi:No one is talking, Amr
   Amr Elsadr:OK. Just heard someone. I guess audio's OK. :)
   Maryam Bakoshi:Hi all, please mute your mic until you are ready to speak. Thank you!
   Robin Gross:too early in the morning for me
   Milton:Sometimes the beautiful nymph Echo would distract and amuse Zeus' wife, Hera, with long and entertaining stories at Zeus's command so he could go womanizing. When Hera discovered the trickery, she was so furious she punished the talkative Echo by taking away her voice, except in foolish repetition of another's words.
   Amr Elsadr:Thanks Milton. :D
   Maryam Bakoshi::)
   Milton:I hope to distract and amuse you with short, entertaining stories
   Robin Gross:please go on
   Amr Elsadr:Yes. Please do Milton. :)
   Amr Elsadr:Going green. :)
   Milton:Avri is amusing enough
   Robin Gross:any cute fuzzy kittens in the stories?
   rafik:hi
   rafik:there is sound?
   Maryam Bakoshi:Hi Rafik
   Milton:I want REED type
   Milton:RED
   Robin Gross:MM, click the little icon in the top right corner of this chat box
   Robin Gross:to change your color
   Amr Elsadr:There's a menu at the top right of the chat box.
   rafik:ok now, I can listen to avri
   Milton:Syracuse orange

Milton:orange you glad?

Robin Gross:BTW: I don't have audio (too early in the morning for making mouth noises in this part of the world).

matthew shears:hi

Robin Gross:The Cuse is in the house.

Robin Gross:Hi Matt!

Milton:Hi, Stranger (Camus)

Amr Elsadr:Nothing now. I'll wait to comment on the document.

Robin Gross:can someone post a link to our comment in this chat? I can't "copy" the URL from the main screen

Amr Elsadr:https://docs.google.com/document/d/14mDNLW17CJ_7rHSprzSAW90jhzPjlMiJf8qkbRM_Lek/edit?pli=1

Robin Gross:thanks!

Amr Elsadr:@Avri: Can you desynch the document?

Amr Elsadr:Thanks.

matthew shears:I don't have a good ense as to whether the BC is onboard with te separability issue

matthew shears:yes

Bill Drake:since I haven't been in this group could you briefly outline the ALAC issues later?

Milton:i will try to do that Bill

Milton:....and if Avri and I can reach consensus, anyone can!!!

matthew shears:!

Amr Elsadr:@Bill: ALAC is pro the ICANN only option at the end of the document.

Bill Drake:ah right

Amr Elsadr:So is the ccNSO.

Maryam Bakoshi:Akinremi Peter Taiwo has joined the meeting

matthew shears: yes ccnso and alac are the ICANN only suporters

Akinremi Peter Taiwo:Good day all.

Amr Elsadr:Hi Akinremi. Thanks for joining the call.

Bill Drake:greetings

Akinremi Peter Taiwo:Good to see you Amr.

Amr Elsadr:I think the registries were saying that there should be even representation between gTLD registries and ccTLD registries.

Bill Drake:sometimes we like experts, sometimes we don't it seems

Bill Drake:this would be in the "consumer's interest"

Bill Drake:guess nobody in ALAC has heard of contestable markets

Milton:I would support that

Akinremi Peter Taiwo:I would like to ask, what happen to IANA Staff after transition to ICANN

Maryam Bakoshi:Marilia Maciel, has joined the meeting

Milton:ability of CSC to give direct input to MRT? Isn't it supposed to do that already?

matthew shears:i think so

Milton:yes

Amr Elsadr:@Milton: Is that question directed at me?

matthew shears:milton agree - not resolver - but forwarding to indepedent appeaks entity

Amr Elsadr:OK. That makes sense.

Milton:ICG is funded by ICANN

Milton:In case I forget, someone remind me to bring up the Jursidiction Issue (sreasm of horror)

Milton:(screams)

matthew shears:I guess anyone can query any policy implemtntation if it goes straight to the appeals panel - really do need some filter to asses the validity of it I think otherwise the process will become politcized

Milton:agree Matt

Amr Elsadr:@Matt: You mean the MRT act as the filter?

matthew shears:i guess

matthew shears:dont see show else could be

Amr Elsadr:Couldn't the GNSO council serve as a filter? The council can determine if the implementation of a policy in question is something that belongs within the GNSO policy context or not, couldn't it?

Amr Elsadr:That's kind of why I am suggesting a direct link between the GNSO and the MRT, as opposed to GNSO representation on the CSC.

Akinremi Peter Taiwo:I think so

matthew shears:on jurisdiction - what if he contractor is based in France? Don't we have to separate the jurisdiction by ICANN and IANA operator?

Bill Drake:not sure that's true

Bill Drake:Swiss law is supposed to make forming all kinds of associations quite easy, that's why Markus did the IGF support association here

Milton:Wake up, Rafik

rafik:I am here

Akinremi Peter Taiwo:hmmmm

matthew shears:don't we want to ensure independence of MRT from ICANN structures?

Milton:Fik, we want to know the next step for approving the comments

Amr Elsadr:@Matt: a mechanism for the GNSO to communicate with the MRT doesn't really affect its independence, does it? Is there something I'm missing?

matthew shears:not sure Amr - just wondering

Milton:Bill, about the Geneva corp, I think the problem is one of legal liability
Maryam Bakoshi:Rafik is having mic issues
Maryam Bakoshi:He will try speaking again
Amr Elsadr:You're all stuck with me!! :D
Milton:I believe that several people have been given the pen on those comment
matthew shears:do we agree or need to revisit the composition of the MRT - this is big issue on the lists
Bill Drake:liability and formation a bit diff, I've heard nothing about the former
Robin Gross:is anyone else's audio out?
Robin Gross:I mean the sound
Robin Gross:I don't hear anything
Milton:I can hear
matthew shears:no audio is ok
rafik:I am trying to speak
Akinremi Peter Taiwo:I can hear
rafik:maryam will send transcripts and recording to the list
Amr Elsadr:I suspect the composition of the MRT is going to be an ongoing discussion. I'm fine with what we're proposing for now.
Milton:Rafik have you activcated your sound? Green microphone icon?
rafik:PCr eceived the statement for review
rafik:yes activated
Maryam Bakoshi:Rafik can you dial in?
Milton:rafik ask Maryam about it
rafik:dial-out
Maryam Bakoshi:Ok
Maryam Bakoshi:Please send me a privtae chat with you no.
Robin Gross:now there is audio again
Maryam Bakoshi:Dialling out to Rafik
Bill Drake:bureaucratization is a constant risk obviously
rafik:joined through dial-in I can speak now :)
Milton:yes, interaction with community!! No to Being the community
Maryam Bakoshi:Rafik is ok to talk
Milton:Fik, Fik, Fik!
Akinremi Peter Taiwo:+1 to Mattew
Milton:But Matt, is it only a puzzle to people who want ICANN to have it permanently?
matthew shears:not sure - we haven't see any real details
Bill Drake:the acronym is confusingly similar anyway
matthew shears:agree Amr
Bill Drake:I have to leave, later

Amr Elsadr:Bye Bill.
Maryam Bakoshi:Thanks, Bill
Bill Drake:well now that the King speaketh I stay
David Cake:leaving for GAC GNSO meeting
Matthieu Camus:thank you!
Bill Drake:GAC GNSO online sounds like a zoo
Bill Drake:more than accountability
Akinremi Peter Taiwo:Avri thanks for your time
Milton:Rafik is "taking over"
Amr Elsadr:Sent my apologies about the GAC GNSO meeting today.
matthew shears:not for me
Robin Gross:what is the GAC GNSO mtg?
Amr Elsadr:Agree with Milton. I'm ready to approve them now.
matthew shears:agrree
Robin Gross:yes, let's approve and move forward asap
Akinremi Peter Taiwo:agree
Amr Elsadr:@Robin: the GAC/GNSO consultative group - early engagement of GAC in the GNSO PDP.
Amr Elsadr:Skipping that meeting today.
Robin Gross:ok, thanks. I wonder if I should follow that issue.
matthew shears:thanks!
Amr Elsadr:It's incredibly boring, Robin!! :P
Akinremi Peter Taiwo:Rafik, nice hearing your voice...lolz
Milton:Rafik takes over, and people start to leave....
Robin Gross:will NCSG do a comment (due 31 Dec) on the GAC subgroup proposal to ban use of words in domain names that refer to people
Robin Gross:and places
Robin Gross:unless you get permission from "relevant" govt.?
matthew shears:robin could ou circlate links
rafik:@robin who is volunteering for that? better to share the link in list
Robin Gross:https://gacweb.icann.org/display/gacweb/Governmental+Advisory+Committee
Robin Gross:I am working on a comment, which I hope to finish today, but I don't know if the NCSG could agree to it
matthew shears:Amr - agree - we need to be more vocal on ICAN N only option - some are saying that accountablty can solve IANA isues - rubbish
Amr Elsadr:+1 @rubbish!! :D
Maryam Bakoshi:Stephanie Perrin has joined the call
Akinremi Peter Taiwo:agree. It goes beyond accountability
matthew shears:sorry going to have to go to another call
Maryam Bakoshi:Robert Njsthika has joined the call

Maryam Bakoshi:*Njathika
matthew shears:yes - will do
Milton:All: I have to go now. Thanks for participating.
Maryam Bakoshi:Thank you all for attending
Robin Gross:thanks, all!
Akinremi Peter Taiwo:Thank...Thank...Thank..
Amr Elsadr:Thanks all. Bye.
